Governor Edmund G. Brown, Jr.
State Capitol, Suite 1173
Sacramento, California 95814

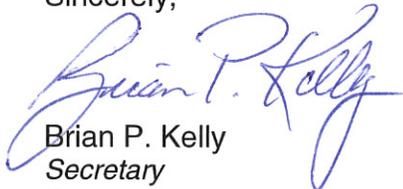

Dear Governor Edmund G. Brown, Jr.:

We are pleased to provide you with the attached California Sustainable Freight Action Plan (Action Plan), prepared in response to Executive Order B-32-15. The Action Plan reflects the substantial collaborative work between our agencies, and other State partners. It is a multi-agency plan for California that reflects the State's essential leadership role to improve our freight transport system, and brings together broad participation from both public and private entities.

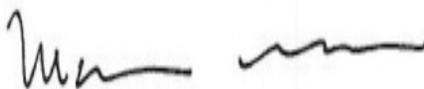

We are excited about the progress the Action Plan signifies. The Action Plan provides a Vision and Guiding Principles to utilize when developing specific investments, policies, and programs related to the freight transport system. It identifies actions to build support and achieve accomplishments that meet many of the State goals identified for health and climate, as well as mobility, safety, and the economy. Most importantly, the Action Plan positions the State to be a more collaborative partner with all levels of government, industry, labor, and environmental and community groups.

Moving forward together will lead California towards a sustainable freight transportation system that achieves the State's environmental, infrastructure, and economic objectives. We look forward to engaging with you to realize the outcomes identified in this plan.

Sincerely,

Brian P. Kelly
Secretary
State Transportation Agency

Matthew Rodriguez
Secretary
Environmental Protection Agency

John Laird
Secretary
Natural Resources Agency
