ALLOCATIONS FOR EMERGENCY PROJECTS

SEISMIC RETROFIT PHASE I

INFORMATION

BACKGROUND

The California Transportation Commission by Resolution G-11, as revised by Resolution G-94, delegated to the Department of Transportation (Department) authority to allocate funds to correct certain situations caused by floods, slides, earthquakes, material failures, slipouts, unusual accidents or other similar events. This allows the Department to immediately begin corrective action in an emergency condition without waiting for the next CTC meeting to receive an allocation.

On March 30, 1994, the California Transportation Commission delegated to the Department authority to allocate funds by Resolution G-11, as revised by Resolution G-94, for seismic retrofit projects. These projects are part of the legislatively mandated Bridge Seismic Retrofit Program (SB131), approved by the Governors Office on March 15, 1994. Due to potential damage to the State Highway System and related infrastructure, it is in the best interest of the State to provide to the greatest extent feasible, resources to address the disruptions and dangerous situations that continue to exist.

SUMMARY AND CONCLUSIONS

Pursuant to the authority granted by Resolution G-11, State funds totaling \$57,000 and Federal funds totaling \$620,000 have been allocated for one (1) Seismic Retrofit Phase I project on the attached list.

- Project #1, in Los Angeles County on Route 5 – Supplemental G-11 Allocation was necessary to cover negotiated interest due to the contractor.
