STIP AMENDMENT 00S-048 NOTICE

SUMMARY

This amendment programs \$10,194,000 from Riverside County's Unprogrammed Share Balance for four new local road projects: \$671,000 for a street improvement project in the City of Corona; \$6,947,000 for a bridge project in the City of Indian Wells; \$1,012,000 for a roadway widening project in the City of Rancho Mirage; and \$1,564,000 for a roadway widening/reconstruction project in Riverside County.

RECOMMENDATION

The Riverside County Transportation Commission (RCTC) is requesting this amendment. The Department has reviewed the amendment and found it to be consistent with the Commission adopted STIP guidelines.

RESOLUTION

Resolved, that the California Transportation Commission (CTC) revise the 2000 State Transportation Improvement Program (STIP) at the end of the 30-day notice period as shown in Attachment A

BACKGROUND

This amendment programs \$10,194,000 from Riverside County's Unprogrammed Share Balance for four new local road projects: \$671,000 for a street improvement project in the City of Corona; \$6,947,000 for a bridge project in the City of Indian Wells; \$1,012,000 for a roadway widening project in the City of Rancho Mirage; and \$1,564,000 for a roadway widening/reconstruction project in Riverside County.

July 11-12, 2001

Project #1 - Lincoln Avenue Improvements (PPNO 0000F)

This amendment programs \$671,000 in Regional Improvement Program (RIP) funds in FY 2002-03 for a project to improve the intersections at Lincoln Avenue/Pamona Road and Lincoln Avenue/Sixth Street in the City of Corona. Lincoln Avenue is a major arterial between State Route 91 and Sixth Street. Lincoln Avenue and Sixth Street currently experience extensive congestion at peak hours. The proposed project will improve the level of service at the two intersections and provide the ability for left turn movements along Lincoln Avenue. The City of Corona is providing an additional \$739,000 for a total project cost of \$1,410,000.

Project #2 - Miles Avenue Bridge (PPNO 0000G)

This amendment programs \$6,947,000 in Regional Improvement Program (RIP) funds in FY 2002-03 for a project to construct the Miles Avenue Bridge in the City of Indian Wells. The Miles Avenue low water crossing over the Whitewater River Channel was washed out during the 1993 storms. The County replaced the washout using large culverts in 1998. The proposed four-lane bridge will provide a more permanent solution as the existing low water crossing is not designed to handle major storms and could wash out again. It will also facilitate traffic circulation throughout the project area. The City of Indian Wells is providing an additional \$2,055,000 in local funds for a total project cost of \$9,002,000.

Project #3 - Ramon Road Street Improvements (PPNO 0000H)

This amendment programs \$1,012,000 in Regional Improvement Program (RIP) funds in FY 2001-02 for a project to provide widening and street improvements on Ramon Road in the City of Rancho Mirage. Increased development in the City of Rancho Mirage and the County of Riverside over the past two years has caused an increase in traffic congestion on Ramon Road. This project will address the congestion by widening the roadway to six lanes. The project also provides curb and gutter, raised median curb, reconstruction of existing road surface, storm drains and a new traffic signal at Los Alamos Road. The non-STIP contribution for this project consists of \$796,000 from the City of Rancho Mirage's General Fund and \$217,000 from Riverside County's General Fund, for a total project cost of \$2,025,000.

Project #4 - Valley Way/Armstrong Road Widening & Reconstruction (PPNO 0000J)

This amendment programs \$1,564,000 in Regional Improvement Program (RIP) funds in FY 2002-03 for a project in Riverside County to reconstruct and widen Valley Way and Armstrong Road to four lanes. The existing two-lane road is in need of reconstruction and widening due to deterioration from age and increasing traffic volumes. Riverside County is providing an additional \$1,821,000 for a total project cost of \$3,385,000.

Attachment A identifies a total of \$10,194,000 in RIP funding and \$5,628,000 in local funds for these four projects.

The non-STIP local fund commitments are displayed to indicate the total funding committed to the projects; they are not allocated by the CTC.
