Subject: **COMMISSION ADVICE AND CONSENT ON TRANSPORTATION DEVELOPMENT ACT  
(TDA) REGULATIONS  
RESOLUTION G-08-04**

## **RECOMMENDATION:**

The California Department of Transportation (Department) recommends the California Transportation Commission (Commission) approve the attached resolution giving its advice and consent on the attached Transportation Development Act (TDA) regulations.

## **ISSUE:**

The Commission is required by the Public Utilities Code (PUC) Section 99241 to give advice and consent on the Transportation Development Act (TDA) regulations, as prepared by the Department. The regulations are updated to incorporate legislative changes and to interpret and clarify the statutes. As part of the review process, the Department provided the proposed revisions of the TDA regulations to the Commission for comment at its February 2008 meeting.

The Department is proposing to amend a section of the TDA impacted by the passage of Assembly Bill (AB) 813. A portion of AB 813, Chapter 354, Statutes of 2003, which went into affect on January 1, 2007, amended PUC Section 99268.17 to remove the sunset date of the original legislation, making the statute permanent. The Department has reviewed the proposed changes with regional agencies, transit operators and affected agencies, and sent out a notice of proposed rule making, allowing a time period of 45 days for review, comment and/or request of a public hearing.

## **BACKGROUND:**

The Mills-Alquist-Deddeh Act, better known as the Transportation Development Act (TDA), was enacted in 1972 by the California legislature and is administered by the Department. It provides two major sources of funding for public transportation in California implemented by regional transportation planning agencies (RTPA). These funds are for the development and support of public transportation needs that exist in California and are allocated to areas of each county based on population, taxable sales and transit performance. The first, the county Local Transportation Fund (LTF), has been in existence since 1972. The second, the State Transit Assistance (STA) fund, came into being in 1980.

TDA statutes are located under the Government Code Title 3, Division 3, Chapter 2, Article 11 and under the Public Utilities Code Division 10, Part 11, Chapter 4, Articles 1-9. Additional implementing provisions can be found under the California Code of Regulations Title 21, Chapter 3, Subchapters 2 and 2.5. The Department produces the *Transportation Development Act Statutes and California Code of Regulations*, which is updated periodically depending on TDA-related legislative actions.

### **PROPOSED CHANGES:**

The Department is proposing to change a TDA regulation, with the advice and consent of the Commission, under the authority granted by Section 99241 of the PUC, which allows the Director of the Department to amend, add, and repeal the regulations as statutes change. The Department is proposing to amend the section impacted by the passage of Assembly Bill (AB) 813. A portion of AB 813, Chapter 354, Statutes of 2003, which went into affect on January 1, 2007, amended PUC Section 99268.17 to remove the sunset date of the original legislation, making the statute permanent. It is requested that CCR Section 6633.2 be amended to conform to PUC Section 99268.17. Below is the text of CCR Section 6633.2, identifying the areas of the proposed amendments, as reflected in strikethrough and underline.

(3) ~~Until January 1, 2000, the amount paid by an operator in disposition of claims arising out of the operator's liability is excluded from operating cost, pursuant to Public Utilities Code section 99268.17.~~

## INTRODUCTION

The Mills-Alquist-Deddeh Act, also known as the Transportation Development Act (TDA), Chapter 4 (commencing with Section 99200) of Division 10 of the PUC, makes funding available for local transportation purposes through two funding sources. One source is the Local Transportation Fund (LTF). The other is the State Transit Assistance (STA) fund.

The TDA provides that the Director, with the advice and consent of the California Transportation Commission, shall adopt regulations to implement the TDA and may revise these regulations from time to time (PUC, Section 99241). The adopted regulations implementing the TDA are codified in Subchapter 2 and 2.5 of Chapter 3 of Title 21 of the CCR. Regulations that are applied to the LTF only or to the TDA generally are in Subchapter 2 (commencing with Section 6600). Those that apply specifically to the STA program are in Subchapter 2.5 (commencing with Section 6700).

Some of the following amendments are in order to clarify and interpret statutory changes made to the TDA by Chapter 354 (AB 813), Statutes of 2003.

The proposed amendments are necessary to conform this regulation to controlling statute of Public Utilities Code section 99268.17, which has been amended.

#### **TECHNICAL, THEORETICAL, AND/OR EMPIRICAL STUDY, REPORTS, OR DOCUMENTS.**

The Department did not rely upon any technical, theoretical, or empirical studies, reports, or documents in proposing the amendment to this regulation.

No other alternatives were presented to or considered by the Department.
