Subject: **ADOPTION OF THE RATE FOR STATE MATCHING OF FEDERAL AIRPORT
IMPROVEMENT PROGRAM GRANTS
RESOLUTION G-08-06**

RECOMMENDATION:

The California Department of Transportation (Department) recommends the California Transportation Commission (Commission) approve the attached resolution adopting the rate for State matching of grants for the Federal Airport Improvement Program (AIP). This item was noticed at the Commission's May 14, 2009 meeting.

ISSUE:

The federal AIP provides public use, publicly owned airports with 95 percent federal grants for airport improvement and maintenance projects. The Department assists the airport sponsors with the local match.

On May 27, 2009, the Commission's Technical Advisory Committee on Aeronautics (TACA) reviewed the Department's proposal to continue the State match rate at 2.5 percent for Fiscal Year (FY) 2009-10 and recommends the Commission adopt the attached resolution.

BACKGROUND:

State law (Public Utilities Code Section 21683.1 (a)) states that the Commission may, at its discretion, provide a portion of the local match for federal AIP grants. The Department is proposing to continue the State matching rate at 2.5 percent based upon recommendations from TACA and Commission staff.

By continuing the AIP match rate at 2.5 percent, funds will become available over the course of FY 2009-10 to allow allocations for Acquisition and Development (A&D) projects for safety and pavement preservation. Without the lower AIP match rate, the Department will continue to have minimal funds to allocate for A&D projects.

The matching rate will be reviewed annually by the Commission in order to balance the needs of the State A&D Program and the level of anticipated AIP match funding levels.
