Subject: **STIP AMENDMENT 08S-044**

## **SUMMARY:**

The County of Riverside proposes to amend the 2008 State Transportation Improvement Program (STIP) for the Route 10/Palm Drive/Gene Autry Trail Interchange project (PPNO 0007E) to delete \$2,600,000 in Regional Improvement Program (RIP) shares programmed for Construction in Fiscal Year (FY) 2009-10.

The California Department of Transportation will request that the California Transportation Commission (Commission) approve the requested STIP amendment at the next scheduled Commission meeting following the notice period.

## **BACKGROUND:**

This project will modify the existing Route 10/Palm Drive/Gene Autry Trail Interchange from diamond configuration to a partial cloverleaf configuration with east and westbound loop entrance ramps and will construct a bridge structure over Route 10 to accommodate additional lanes.

This project is currently programmed for delivery in FY 2009-10. Riverside County is ready to begin construction now and will use regional funds from the American Recovery and Reinvestment Act of 2009, as well as Federal Demonstration and local funds. As such, the agency is requesting to delete this project from the 2008 STIP.

The Riverside County Transportation Commission concurs with these changes.
