This project in San Bernardino County will construct roadway improvements including intersection improvements at three locations on Route 15 in the city of Victorville. The project is programmed in the 2010 State Transportation Improvement Program and includes federal and local funds. Construction is estimated to begin in Fiscal Year 2012-13. Total estimated project cost is \$146,676,000 for capital and support.

A copy of the MND has been provided to Commission staff. The project will involve construction activities that will result in changes to the built environment and may impact visual and aesthetic resources. The project will also involve construction activities in the habitat of the desert tortoise and the arroyo toad. Both species are federally listed threatened species.
