Subject: **STIP AMENDMENT 10S-033**

SUMMARY:

The California Department of Transportation (Department) will request that the California Transportation Commission (Commission) approve the requested State Transportation Improvement Program (STIP) amendment at the next scheduled Commission meeting following the notice period.

ISSUE:

El Dorado County (County) proposes to amend the 2010 STIP for the Class I Bike Path- El Dorado Hills SMUD Corridor Project (PPNO 1216) to shift \$15,000 Regional Improvement Program (RIP) Transportation Enhancement (TE) funding programmed on Design (PS&E) in Fiscal Year (FY) 2010-11 and to add it to construction in FY 2011-12.

BACKGROUND

Programmed in the 2010 STIP, the Class I Bike Path- El Dorado Hills SMUD Corridor TE project is funded with both STIP RIP TE funding as well as local funds. Currently, the Environmental Phase (PA&ED) is being delivered entirely with local funds however, PS&E is being delivered with both RIP TE and local funds.

In order to give the County more flexibility utilizing consultants, the County proposes to deliver PS&E entirely with local funds and transfer the \$15,000 in RIP TE currently programmed on PS&E in FY 2010-11 to construction in FY 2011-12. Construction, however, will still be delivered using both RIP TE as well as local funding and the RIP funding will be 100 percent federally funded. A portion of the local funds currently programmed on construction thus would be used for PS&E and the total amounts for both PS&E and construction would not change. The changes as described above are also reflected in the funding table below.
