

# Memorandum

To: CHAIR AND COMMISSIONERS

CTC Meeting: June 22-23, 2011

Reference No.: 4.5  
Action

From:   
BIMLA G. RHINEHART  
Executive Director

Subject: AMENDMENT TO THE FISCAL YEAR 2010-11  
ENVIRONMENTAL ENHANCEMENT AND MITIGATION (EEM) PROGRAM  
RESOLUTION G-11-06, AMENDING RESOLUTION G-11-03

## ISSUE

The Fiscal Year (FY) 2010-11 State Budget provided \$10 million for the Environmental Enhancement and Mitigation (EEM) Program.

Should the Commission program \$74,140 to the top project on the EEM Program Substitution List to replace an approved project in the same category being withdrawn by the applicant agency?

## RECOMMENDATION

Staff recommends that the Commission adopt the attached resolution to program the available balance of \$74,140 to the next project listed on the EEM Program Substitution List.

## BACKGROUND

The Commission has the statutory responsibility to fund the EEM Program, as prioritized by the California Natural Resources Agency (Resources Agency), in accordance with the annual funding level provided in the State Budget.

The Resources Agency received 65 grant applications for FY 2010-11. Of those, 4 applications were disqualified. The remaining 61 eligible applications were evaluated and used to develop a Recommended for Funding List (35 projects) and a Substitution List (26 projects).

At its March 23-24, 2011 meeting, the Commission approved \$10,000,000 for a FY 2010-11 EEM Program of 16 projects in the north for \$4,721,276 and the 19 projects in the south for \$5,278,724. The 35 projects on the final Projects Recommended for Funding List are the top-ranked projects, and are listed in priority order by category.

A project in Inyo County approved for \$74,140, Dirty Socks Spring Acquisition and Protection, is being withdrawn by its proponent, Eastern Sierra Land Trust.

The Resources Agency contacted The Trust for Public Land, an agency in San Luis Obispo County with the top-ranked project, in the same category, on the Substitution List (Righetti Ranch Resource Lands Acquisition), to find out if the \$74,140 available would allow The Trust for Public Land to proceed with the project.

The total project cost is \$1,800,000, of which \$350,000 was to be funded by EEM. The agency has accepted the available amount of \$74,140 and has found additional local funds to make up the difference. The total project cost remains \$1,800,000, the \$74,140 EEM funds plus \$1,725,860 from other sources.

Under EEM statutes, Streets and Highways Code Section 164.56(d), the Resources Agency is responsible for developing and adopting procedures and criteria; evaluating grant proposals; submitting a list of ranked projects recommended for funding; and finding that the projects are eligible for funding under Article XIX of the State Constitution. The Resources Agency's procedures and criteria contain a detailed, quantitative scoring mechanism that is used to evaluate and rank projects in priority order by assigning point scores to each project. In accordance with the provisions of Section 187 and 188 of the Streets and Highways Code, an attempt is made to allocate 40% of the total amount recommended to projects in the northern counties and 60% of the total amount to projects in southern counties.

The EEM Program is designed to undertake "environmental enhancement and mitigation projects that are directly or indirectly related to the environmental impact of modifying existing transportation facilities or for the design, construction, or expansion of new transportation facilities". EEM projects must provide environmental enhancements and mitigation over and above what is otherwise called for under the California Environmental Quality Act (CEQA) of 1970 or the National Environmental Policy Act (NEPA) of 1969.

The general categories of EEM projects eligible for funding are:

- Highway Landscape and Urban Forestry projects designed to offset vehicular emissions of carbon dioxide through the planting of trees and other suitable plants. Projects may be within or outside the right-of-way of the related transportation facility. Projects within the right-of-way, however, are not intended to supplant or augment highway landscaping that would normally be funded by the responsible public agency. Any planting within public road rights-of-way shall be limited to trees only.
- Resource Lands acquisition, restoration or enhancement of resource lands to mitigate the loss of, or the detriment to, resource lands lying within or near the right-of-way, acquired for proposed transportation improvements. Resource lands include natural areas, wetlands, forests, woodlands, meadows, streams, or other areas containing fish or wildlife habitat. Enhancement of resource lands may include the restoration of wildlife corridors.
- Roadside Recreational acquisition and/or development of roadside recreational opportunities, including roadside rests, scenic overlooks, trails, trailheads, sno-parks, and parks.

Any local, state or federal agency or nonprofit entity may apply for and receive grants under the EEM Program. The applicant is not required to be a transportation organization but must be able to demonstrate adequate charter or enabling authority to carry out the type of project proposed. Two or more entities may participate in a joint project.

AMENDMENT OF THE ADOPTED FISCAL YEAR 2010-11  
ENVIRONMENTAL ENHANCEMENT AND MITIGATION PROGRAM

Resolution G-11-06, amending Resolution G-11-03

- 1.1 WHEREAS, Streets and Highways Code Section 164.56 establishes the Environmental Enhancement and Mitigation (EEM) Program; and
- 1.2 WHEREAS, this program provides \$10 million annually for environmental enhancement and mitigation projects which are directly or indirectly related to the environmental impact of modifying existing transportation facilities or for the design, construction or expansion of new transportation facilities; and
- 1.3 WHEREAS, the Resources Agency is charged with evaluating proposals submitted for this program and providing a list of proposals recommended for funding to the Commission; and
- 1.4 WHEREAS, the Commission is responsible for awarding grants to fund proposals which are included on the list prepared by the Resources Agency; and
- 1.5 WHEREAS, on March 23, 2011, the Commission adopted Resolution G-11-03, approving the final Fiscal Year (FY) 2010-11 EEM Projects Recommended for Funding list totaling \$10,000,000 for thirty-five projects, and
- 1.6 WHEREAS, in April 2011, a project in Inyo County approved for \$74,140, Dirty Socks Spring Acquisition and Protection, was withdrawn by its proponent, Eastern Sierra Land Trust; and
- 1.7 WHEREAS, also in April 2011, the Resources Agency submitted a request to add The Trust for Public Land's Righetti Ranch Resource Lands Acquisition project (from the Substitution List) and to program the available \$74,140 to the project; and
- 1.8 WHEREAS, the Resources Agency has submitted an amended Projects Recommended for Funding list, including the addition of the available \$74,140 to the Righetti Ranch Resource Lands Acquisition project; and
- 1.9 WHEREAS, the amended list, including all supplemental information, has been reviewed by Commission staff, and appears to meet all basic requirements as specified in the EEM statutes, and the Commission policies and guidelines.

- 2.1 NOW THEREFORE BE IT RESOLVED, that the Commission adopts the amended list for the FY 2010-11 Environmental Enhancement and Mitigation Program totaling \$10,000,000 for thirty-five projects, as indicated in the attached revised list of projects.
- 2.2 BE IT FURTHER RESOLVED, that it is the intent of the Commission to allocate available Fiscal Year 2010-11 funds for these projects, and expects that funds so allocated should be expended on a timely basis, preferably by June 30, 2012; and
- 2.3 BE IT FURTHER RESOLVED, that for projects which include land acquisition, the Commission would encourage grant recipients to reduce overall project costs by exploring the feasibility of acquiring easements rather than fee title when appropriate; and
- 2.4 BE IT FURTHER RESOLVED, that due to the uniqueness of the individual projects in this program, the Commission hereby directs the Department of Transportation to be especially diligent in the on-site inspection and auditing of the projects included in this program.
