To: CHAIR AND COMMISSIONERS  
CALIFORNIA TRANSPORTATION COMMISSION

CTC Meeting: September 15, 2011

Reference No: 2.4b.  
Action Item

From: NORMA ORTEGA  
Chief Financial Officer

Prepared by: Brent L. Green  
Chief  
Division of Right of Way and  
Land Surveys

Subject: **RESOLUTIONS OF NECESSITY**

## **RECOMMENDATION:**

The California Department of Transportation (Department) recommends the California Transportation Commission (Commission) adopt Resolutions of Necessity (Resolution) C-20621 through Resolution C-20646 and amended Resolution C-20414, summarized on the following pages.

## **ISSUE:**

Prior to initiating Eminent Domain proceedings to acquire needed right of way for a programmed project, the Commission must first adopt a resolution stipulating specific findings identified under Section 1245.230 of the Code of Civil Procedure.

Moreover, for each of the proposed Resolutions, the property owners are not contesting the following findings contained in Section 1245.230 of the Code of Civil Procedure:

1. The public interest and necessity require the proposed project.
2. The proposed project is planned and located in a manner that will be most compatible with the greatest public good and the least private injury.
3. This property is necessary for the proposed project.
4. An offer to purchase the property in compliance with Government Code Section 7267.2 has been made to the owner of record.

The only remaining issues with the property owners are related to compensation.

## **BACKGROUND:**

Discussions have taken place with the owners, each of whom have been offered the full amount of the Department's appraisal and, where applicable, advised of any relocation assistance benefits to which the owners may subsequently be entitled. Adoption of the Resolutions will not interrupt our efforts to secure equitable settlement. In accordance with statutory requirements, each owner has been advised that the Department is requesting the Resolution at this time. Adoption will assist the Department in the continuation of the orderly sequence of events required to meet construction schedules.
