Ref: **AERONAUTICS ACCOUNT PENDING ALLOCATIONS**

At the October 2002 California Transportation Commission (Commission) meeting, the Commission took action to approve California Aid to Airports Program (CAAP) Funds for only safety projects and those projects for matching federal Airport Improvement Program (AIP) grants. The Governor's mid-year spending reduction proposal of December 6, 2002 proposes to transfer an additional \$5.2 million from the Aeronautics Account. This proposed transfer will reduce CAAP funds and prohibit the Department of Transportation from recommending allocations, including allocations for safety projects.

The following table summarizes all pending allocation requests to date as listed on the following pages:
