1 \$650,000 Humboldt 01U-Hum-96 44.6	Near Orleans, 0.4 mile west of the Siskiyou County line. Due to heavy rain in early 2010, a large slide occurred at this location covering the entire roadway with rock and soil debris up to 40 feet high causing roadway closure. Initial allocation was to remove rock and debris, provide traffic control, construct a rock catchment area, and repair damaged roadway. This supplemental is necessary to ensure traffic safety by adding a permanent rock-fall mitigation net on the slope, add guardrail to maximize roadway width, pave and restripe the roadway, and construct additional rock fall barrier at roadway elevation. Initial G-11 Allocation 03/02/10: \$990,000 Supplemental G-11 Allocation 05/04/10: \$650,000 Revised Allocation: \$1,640,000	0A0301 01-2297 SHOPP Emergency	2009-10 302-0042 SHA 20.20.201.130	\$650,000

On April 27, 2010, an old slide area at this location was activated by recent rain damaging roadway drainage and causing roadway differential settlements in the travel way. This project is to place traffic warning signs and lighting, realign the vertical roadway profile, repair drainage and conduct traffic control. Initial G-11 Allocation 05/05/10: \$799,000. The sinkhole was found to be caused by a failed section of a 42-inch corrugated metal pipe (CMP). This project is to replace an approximately 100-foot section of the CMP and backfill the sinkhole area. 4 \$1,500,000 Monterey 05U-Mon-1 20.95	Near Big Sur, at Limekiln Creek Bridge (Bridge#44-58). A series of severe rainstorms and accompanying high ocean surf in early 2010 caused an existing retaining wall below Route 1 to fail. The wall supports the embankment below the bridge's north abutment. This project is to backfill a void that developed behind the wall with rock, and to place rock slope protection at the toe of the face of the wall to minimize erosion. Permanent restoration to reconstruct the wall or to relocate the north abutment of the bridge will be pursued in a future project. Initial G-11 Allocation 04/08/10: \$1,500,000. 5 \$2,000,000 Monterey 05U-Mon-1 22.5/22.9	Near Big Sur at Lucia. On February 6, 2010, a slip-out occurred at this location resulting in the complete loss of the southbound lane for approximately 200 feet. Initial allocation was to install a temporary one-way traffic signal system and stabilize the damaged roadway. This supplemental is due to excessive slide movement that required constant loading, hauling and placement of buttressing material; and the need to order and furnish steel pilings for a future permanent retaining structure project (tie-back soldier pile wall) expected to be ready for bids in September 2010. The steel pilings have a lead time of 3 to 4 months for fabrication. Initial G-11 Allocation 02/10/10: \$400,000. Supplemental G-11 Allocation 05/17/10: \$2,000,000. On February 6, 2010, as a result of heavy rain, a slip-out occurred at this location. The slip-out resulted in the loss of the roadway shoulder and part of the travel lane. The initial allocation was to excavate the damaged slopes and construct a gabion wall to support the roadway embankment. This supplemental is due to the uncovering of two failed culverts under the wall that needed replacement. Initial G-11 Allocation 02/11/10: \$600,000. On February 18, 2010, the southern face of the adjacent hillside gave way and fell onto the transition roads from westbound Route 10 and northbound Route 71 to northbound Route 57. The slide debris reached 40 feet high and over 100 feet long and closed both transition roadways. Initial allocation was to remove slide debris, grade back the failed slope, and repair damaged roadway facilities. This supplemental is due to additional grading, hauling and disposing of more soil material than was originally expected; and a sudden unexpected slope failure on April 25 that resulted in additional grading and soil debris and damage to roadway facilities. Initial G-11 Allocation 03/02/10: \$3,250,000. Supplemental G-11 Allocation 05/04/10: \$2,000,000.
