TRANSPORTATION COMMISSION

California Transportation Commission

ADOPTION OF THE 1998-99 ENVIRONMENTAL ENHANCEMENT AND MITIGATION PROGRAM

Resolution G-98-16

WHEREAS Streets and Highways Code Section 164.56, enacted as part of Assembly Bill 471 (Katz) in 1989 created the Environmental Enhancement and Mitigation Program; and

WHEREAS this program provides $10 million annually for environmental enhancement and mitigation projects which are directly or indirectly related to the environmental impact of modifying existing transportation facilities or for the design, construction or expansion of new transportation facilities; and

WHEREAS the Resources Agency is charged with evaluating proposals submitted for this program and providing a list of proposals recommended for funding to the California Transportation Commission; and

WHEREAS the California Transportation Commission is responsible for awarding grants to fund proposals which are included on the list prepared by the Resources Agency; and

WHEREAS the Resources Agency has prepared such a list, and that list has been reviewed and reduced by Commission staff from just over $15.7 million in projects to $10 million in projects.

NOW THEREFORE BE IT RESOLVED that the Commission adopts the 1998-99 Environmental Enhancement and Mitigation program, as indicated in the attached lists of projects.

BE IT FURTHER RESOLVED that actual allocation and encumbrance of funds for the Department of Parks and Recreation's Coal Canyon project can occur only after demonstration to the Commission that full funding is committed for the project. This demonstration must occur at the Commission's February 17-18, 1999 meeting or at an earlier meeting, or the Commission may pursue other uses for the funds programmed for that project, so as to avoid the lapsing of these funds at the end of FY 98-99.

BE IT FURTHER RESOLVED that funding for the City of San Diego's new Carmel Mountain project is contingent on the City submitting an application for the new project to the Resources Agency, and the Agency's determination of the priority and relative ranking of the project in comparison with other funded and unfunded FY 98-99 EE&M projects.

BE IT FURTHER RESOLVED that it is the intent of the Commission to allocate available funds for these projects during State Fiscal Year 1998-99, and that all funds so allocated should be expended prior to the end of State Fiscal Year 1999-00; and

BE IT FURTHER RESOLVED that for projects which include land acquisition, the Commission would encourage grant recipients to reduce overall project costs by exploring the feasibility of acquiring easements rather than fee title when appropriate; and

BE IT FURTHER RESOLVED that due to the uniqueness of the individual projects in this program, the Commission hereby directs Caltrans to be especially diligent in the on-site inspection and auditing of the projects included in this program.
