Cross Agency Asset Management Forum

Bridge Asset Management -Session 2 Wednesday, May 8, 2024 2:00 to 3:30 p.m.

In the February 2024 Forum, we featured experts on lowering long term cost with preventive maintenance, bridge deck and joint maintenance, bridge scour, and timber bridge deterioration. These robust discussions inspired the need for an additional session. Session 2 will feature two city agencies presenting their bridge management efforts.
