

MEMORANDUM

To: CHAIR AND COMMISSIONERS
CALIFORNIA TRANSPORTATION COMMISSION

CTC Meeting: January 25-26, 2024

From: STEVEN KECK, Chief Financial Officer

Reference Number: 2.5k., Information Item

Prepared By: Dee Lam, Chief
Division of Local Assistance

Subject: **FINAL UPDATE ON THE CRRSAA PROJECT LIST UNDER DELEGATED AUTHORITY**

SUMMARY:

The California Department of Transportation (Department) is presenting the final update of the Project List for the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA) to the California Transportation Commission (Commission) at its January 2024 meeting as an informational item. The Project List shows the final programming changes that were made by the Department to projects under the delegated authority granted to the Department by the Commission at the June 2, 2023 Commission meeting.

BACKGROUND:

The CRRSAA apportioned \$911.8 million to California in December 2020. Under CRRSAA, the COVID Relief Funds could be used for a broad range of surface transportation purposes listed in Section 113(b) of Title 23 of the U.S. Code and were meant to “prevent, prepare for, and respond to coronavirus.” Specifically, CRRSAA allowed states to cover revenue losses, which was important given that California’s State-generated transportation revenues have declined by about \$1.5 billion due to the pandemic. Additionally, CRRSAA allows COVID Relief Funds to be used for preventive and routine maintenance, operations, personnel, salaries, contracts, debt service payments, availability payments, as well as transfers to public tolling agencies.

In March 2021, the Commission approved the COVID Relief funding distribution and regional apportionments for the CRRSAA Program. A total of \$182.4 million was distributed to the regions from the CRRSAA Program.

The CRRSAA Program guidelines required regions to submit a project list for allocation by

“Provide a safe and reliable transportation network that serves all people and respects the environment.”

the Commission prior to the obligation of funds. As of June 2, 2023, 186 projects totaling \$182,364,599 had been allocated.

The Fiscal Responsibility Act of 2023 immediately rescinded all unobligated CRRSAA funds when it became public law on June 3, 2023. However, at the June 2, 2023 meeting, the Commission delegated the authority to the Department to make programming changes to projects the Commission previously approved for funding under the CRRSAA Program, and also required the Department to report on any actions taken to implement the delegated authority at the August 2023 Commission meeting.

Since the June 2, 2023 meeting, \$5.2 million in unobligated funds were rescinded from the COVID STIP Program and the CRRSAA non-STIP Program; \$4,046,000 was lost from the COVID STIP Program and \$1,154,000 was rescinded from the CRRSAA non-STIP Program.

At the December 2023 Commission meeting, the Department agreed to fully backfill the state fund exchanges from the June 2, 2023 Commission meeting. The Department then collected the project list changes to account for the rescinded funds. Additionally, the Department requested all final project list changes for projects that had to move forward with alternative funds while the backfill for the state funds requests was being determined.

The attachment contains the final Project List for the CRRSAA Program. The total allocation has been reduced from \$182.4M to \$181.2M to account for funds that were rescinded. The final list adds seven new projects and removes six previously approved projects across four regions. This final list also reduces funding to nine projects to account for the rescinded program funds.
