Merced Gateway & Mural Project At-A-Glance

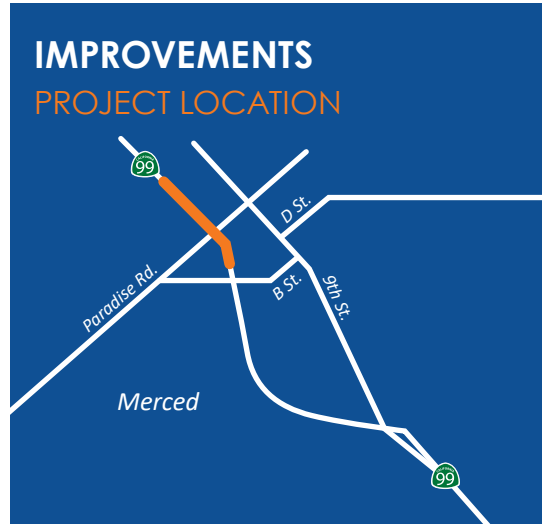

PROJECT OVERVIEW

It is proposed to install welcome monuments and murals throughout the Merced region. These welcome signs, monuments and murals will serve as important markers to improve the aesthetics of our community and will also provide motorists unfamiliar with the area directional assistance. Additionally, this monument project will strengthen the infrastructure of our once divided communities of north and south Merced. In addition, these installations will provide much-needed improvement of public spaces and reduce incidences of litter and graffiti in underserved areas. Additionally, community members will view this project as an opportunity to share their sense of place and pride.
