Present Land Use/Zoning/General Plan Designation:

Zoning within the Environmental Study Limits is designated as rural residential agricultural district and highway commercial district.

Project Description: (please use a separate page if necessary)

(Caltrans), using state and federal funding, is proposing to replace the Scott River Bridge in Siskiyou County on state route (SR) 96 from post mile (PM) 71.0 to 71.5. The existing bridge that is approximately 229 feet long and 32 feet wide would be removed and replaced with a new bridge that would be approximately 240 feet long and 44 feet wide and would be supported by two abutments and four pier columns (two at each pier). The new bridge would have two 12-foot-wide paved travel lanes and each lane would have an 8-foot-wide paved shoulder. The approaches to the new bridge would be on a realigned roadway shifted slightly to the north and would consist of two 12-foot-wide paved travel lanes and each lane would have up to an 8-foot-wide paved shoulder.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
