

I-680

MISSION SAN JOSE (I-680 / SR-238) SEPARATION

BRIDGE REHABILITATION PROJECT

55 hr. Highway Closures on Interstate 680 Work will begin Friday at 10PM to Monday 5AM.

July 25-July 28-Southbound I-680
August 8-August 11-Northbound I-680

Caltrans is improving safety and infrastructure in your community! Construction is already underway in preparation for these closures but Caltrans is scheduled to close one direction of Interstate 680 at the I-680 and Mission San Jose (SR-238) Separation/Overpass in Fremont for two consecutive weekends to perform critical bridge and pavement work. 55-hour closures are necessary to safely and efficiently complete key construction activities, including bridge deck resurfacing, approach slab repairs, and barrier replacement. This phase of work involves heavy machinery and the resurfacing of the entire bridge deck. This work must be performed without live traffic to ensure worker and motorists safety. After the major bridge and overlay work is completed, additional work will continue during nighttime closures through Spring 2026. These improvements will meet modern safety standards, protect travelers and enhance the long-term durability of this structure.

Please note all work is subject to change due to weather or scheduling constraints.

WHAT TO EXPECT:

- ◆ **55 Hour Weekend Full Closure on July 25-July 28 of Southbound I-680** The closure will be just on the I-680/SR-238 Separation Overpass. The Detour will allow drivers to exit and reenter the freeway.
- ◆ **55 Hour Weekend Full Closure on August 8-August 11 of Northbound I-680** The closure will be just on the I-680/SR-238 Separation Overpass. The detour will be over 11 miles long, utilizing Niles Canyon (SR-84).

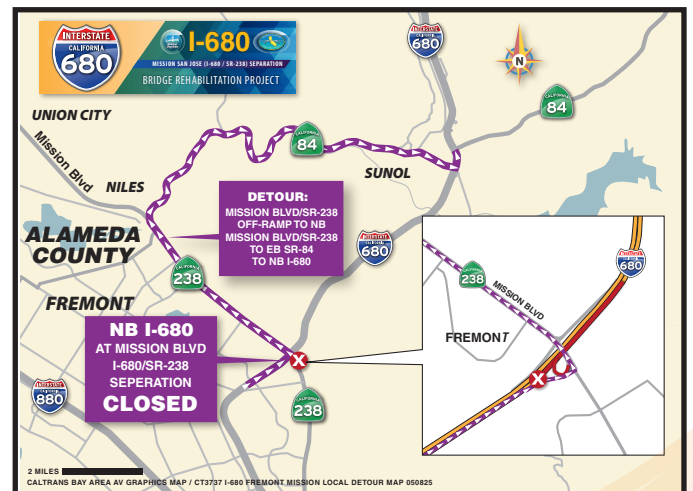

We appreciate your patience as we work to build a safer California.
