

Guadalupe to Santa Maria Highway 166 CAPM

Santa Barbara County - Highway 166 - PM 0/8.9

Description

The Guadalupe to Santa Maria Highway 166 CAPM is located in Santa Barbara County on the Highway 1/166 junction in the community of Guadalupe to the Highway 101 interchange in the City of Santa Maria. This project plans to preserve a quantity of lane miles of flexible Class 2 and 3 pavement using CAPM strategies, including shoulder backing. It will also replace Transportation Management Systems, repair/upgrade ADA curb ramps, and install accessible pedestrian signals.

Purpose & Need

The purpose of this project is to preserve and extend the life of the existing pavement, install count stations, update guardrail to MASH standards, and update curb ramps to meet ADA compliance. The pavement within the project limits is exhibiting deterioration and could require additional maintenance effort if not addressed. The curb ramps Caltrans has identified do not meet ADA compliance, portions of guardrail does not meet MASH standards, and various signs are damaged or need replacement. Additionally, existing count station conditions will not provide effective traffic monitoring.

Current Schedule

Approve Project Initiation Doc.	Complete
Circulate Draft Environ. Doc.	March 2024
Approve Project Report and Environ. Doc.	July 2024
100% Design Completion	April 2026
Begin Construction	November 2026
End Construction	July/August 2027

Funding

Fund Source	SHOPP
Construction Capital Estimate	\$11,191,000
Right of Way Capital Estimate	\$69,000
