JULY 2024

MORRO BAY PAVEMENT PROJECT

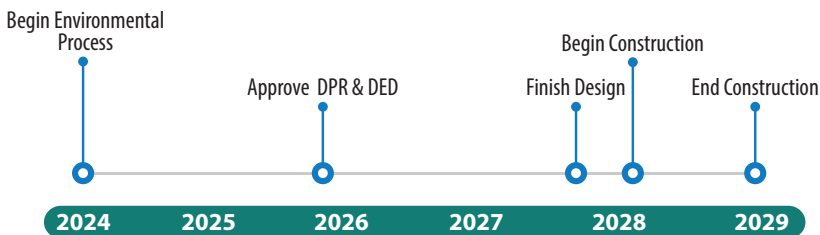

DESCRIPTION

The project proposes to preserve 34.38 lane miles of pavement using a Capital Preventive Maintenance (CAPM) strategy: grind 0.10' of existing pavement and overlay with 0.15' of Rubberized Hot-Mix Asphalt (RHMA). Additionally, the project proposes to replace census/signal loops, replace minor drainage, upgrade guardrail and median Thrie-Beam, replace roadway signs, replace light poles, add bike lanes at signalized intersections, and upgrade curb ramps to meet current Americans with Disabilities Act (ADA) standards.

PURPOSE

To preserve and extend the service life of the existing pavement, restore other roadway facilities that are in poor/fair condition and upgrade curb ramps to ADA compliant standards.

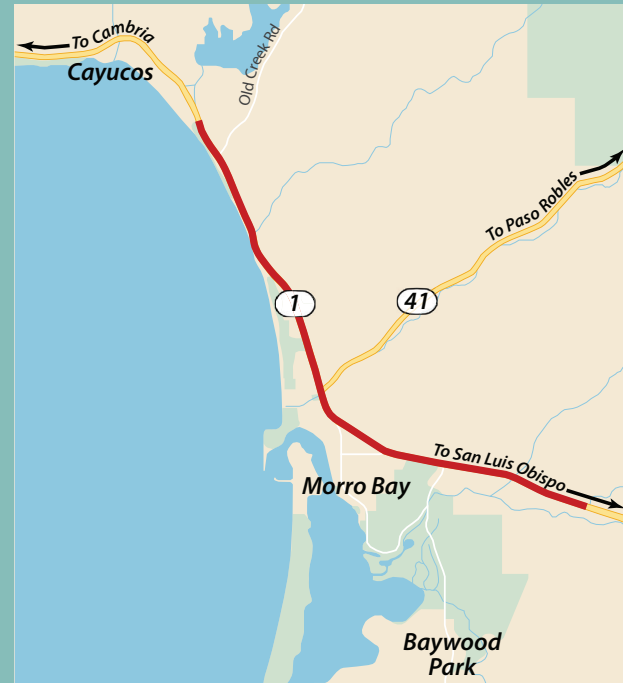

TARGET MILESTONES

* As of July 2024. Project Schedule is subject to change based on environmental process and permitting.

PROJECT AREA

LOCATION

San Luis Obispo County
Highway 1
Post Mile 25.7/34.4

ESTIMATED CONSTRUCTION COST

State Highway Operation and Protection Program (SHOPP) - \$32 Million

PUBLIC OUTREACH

Caltrans has engaged with the City of Morro Bay and received input on the project. It is anticipated that one or more virtual public outreach meetings will be held throughout the CEQA process to allow the public an opportunity to provide feedback on the project, the first of which will be in late summer/early fall 2024.
