BIG SUR REGENT'S SLIDE UPDATE

September 3, 2025

CREWS CONTINUE TO WORK 7 DAYS A WEEK

ESTIMATED REOPENING DATE TO BE RELEASED MID-SEPT.

3,500 SHEAR DOWELS HAVE BEEN INSTALLED

Caltrans District 5 Website

IN RECENT NEWS:

The excavation of the slope is progressing steadily. Three excavator drills are in operation every day as they continue to install shear dowels on the cut slope behind the work area to stabilize the hillside.

More than 50 contracted crew members are on-site, working seven days a week to maintain progress.

Every effort brings us closer to stabilizing the hillside and reopening safe access along this iconic stretch of Big Sur.
