# BIG SUR REGENT'S SLIDE UPDATE

November 27, 2025

**TODAY AND THROUGHOUT THE HOLIDAY WEEKEND, CREWS  
CONTINUE WORKING TO ADVANCE REPAIRS AT REGENT'S SLIDE.**

**Caltrans District 5 Website**

### IN RECENT NEWS:

Recent rain and heavy fog caused a loss of 12 working days in November. However, crews are now back on site, and full excavation operations are underway.

Progress down the slope has advanced sufficiently to safely mobilize two conventional excavators, which are now working alongside four spider excavators to enhance production.

The installation of the cable-net drapery system is continuing in tandem with excavation efforts. This system helps to manage rockfall and protects ongoing work as crews steadily move downslope.
