OVERVIEW AND OBJECTIVES

The I-110 corridor stretches from the South Bay, near the Port of Los Angeles, to Downtown Los Angeles, near the I-110/I-5 Interchange. It also encompasses the transit and active transportation options that run along the corridor, most notably the Metro J (formerly Silver) Line Express Busway.

OBJECTIVES OF THE CMCP INCLUDE THE FOLLOWING:

- Encourage effective communication and transparent planning processes with all stakeholders.
- Preserve the character of local communities, create opportunities for neighborhood enhancement, and improve multimodal accessibility including complete streets.
- Task a multi-disciplinary, multi-organizational corridor project development team to look at community, State, and local transportation systems.
- Support Federal / State air standards and greenhouse gas (GHG) emissions reduction.
- Identify and prioritize projects, strategies, and opportunities to provide a balanced future corridor.

PLAN STUDY AREA

CORRIDOR PLAN APPROACH

The CMCP follows the steps in California Department of Transportation (Caltrans) Corridor Planning Process Guide. The Guide is a comprehensive planning approach based on protocols and procedures to identify and implement multimodal transportation needs.

PUBLIC ENGAGEMENT

Public engagement is an essential part of the plan. Caltrans District 7 System Planning Multimodal Corridor Plan Team is in the process of initial public engagement through our website and emails with State and local agencies, various modal group, and stakeholders.

In response to the COVID19 pandemic, virtual meetings and workshops will be used until further notice. Participants will be encouraged to ask questions and provide comments during these meetings.

KEY STRATEGIES AND DEMO PROJECTS FOR LONG RANGE PLANNING ANALYSIS

TRANSIT/ACTIVE TRANSPORTATION

- Grand Av and Olive St Bus Priority Lanes Project
- Link Union Station
- Regional Connector Transit Project
- Los Angeles River Path Project
- Rail to River Active Transportation Corridor Project – Segment B
- LADOT Community Infrastructure & Resiliency Zone (CIRZ) Project

MANAGED LANES/OTHER PROJECTS

- I-110 was identified in the Caltrans District 7 Integrated Corridor Management (ICM) Master Plan as a potential candidate corridor for ICM implementation in District 7, between I-105 and I-10. Planned ICM improvements and integrations include traffic signals, Transportation Management Systems (TMSs), and other improvements including Bluetooth devices that transmit speed and travel times along arterial routes, Closed-Circuit Television (CCTV), and Dynamic Message Signs (DMSs).
- 110 Adams Terminus Improvement Project

MILESTONES AND SCHEDULE

*Subject to change

Summer 2021 – Begin scoping and data collection

Fall 2021 and Winter 2022 – Perform analysis

Spring 2022 – Finalize initial draft

Summer 2022 – Circulate draft document for review

Fall 2022 – Respond to comments and finalize document
