

2022 California TAMP Investment Strategies & Targets Workshop #4

2022 California TAMP Investment Strategies & Targets Workshop

This workshop will include a presentation from transportation asset management consultant, Applied Pavement Technology (APTech) on TAMP Investment Strategies. Caltrans will then explain a different approach to the TAMP including a new performance tool to evaluate projected NHS pavement and bridge conditions at the end of the TAMP 10-Year period customized for each regional agency. Current performance targets can then be reviewed to determine if any adjustments should be made for the 2022 TAMP.
