2026 Transportation Asset Management Plan (TAMP) Risk Management Session 2 Thursday, May 15, 2025 10:00 to 12:00 p.m.

Please join transportation stakeholders from across California for the 2026 Transportation Asset Management Plan (TAMP) development, Risk Management Session 2. The TAMP is required to be updated every 4 years and establishes the desired state of repair condition targets for National Highway System pavement and bridges.

This 2026 TAMP - Risk Management Session 2 will cover the following topics:

- Recap of Risk Management Session 1
- Development of Final Risk Statements
- Development of Mitigation Strategies
- Development of Risk Monitoring Strategies

Working with California cities, counties, and local governments ensures the successful development and implementation of the federally mandated TAMP.

This virtual workshop will be a continuation of a series of workshops that will culminate in the development of the 2026 California TAMP.
