Current Job Title President Begin Date: 1/19/2018

Employer Name Flaherty Engineering Incorporated

Duties/Projects:

- 1 Currently the Resident Engineer on the \$3.6 million project responsible for overseeing the construction of the bridge and roadway replacement and reconstruction. The project involved creek diversion, bridge demolition and construction, environmental compliance, import borrow, road construction and drainage. Keith manages field activities and coordinates with the contractor, County staff and stakeholders like adjacent property owners, permit agencies. The project was further complicated by late relocation of utility poles that complicated the bridge construction sequencing.
- 2 Resident Engineer on the \$2.3 million project responsible for overseeing the construction of the bridge and roadway replacement. The project involved creek diversion, bridge demolition and construction, environmental compliance, import borrow, road construction and drainage. Keith managed field activities and coordinated with the bridge contractor, County staff and stakeholders like Caltrans, permit agencies and affected residents. Successfully oversaw complex creek diversion with multiple permit stipulations.

ONGOING CONSULTING SERVICES *Please enter your most recent experience first*

Job Title Senior Vice President Begin Date: 5/1/2007

Employer Name Vali Cooper and Associates Incorporated

Duties/Projects:

- 1 Mr. Flaherty served as a claims and scheduling specialist for the I-5 HOV widening and rehabilitation project, and the Hwy 4 extension into the Port of Stockton. Collectively these projects have \$170M in construction value and are complicated with several hundred change orders. Mr. Flaherty was requested by Caltrans to help them resolve the multiple scheduling and claims issues on these projects.
- Mr. Flaherty is also the contract/project manager responsible for oversight of construction management services for projects including the I-5 HOV widening and rehabilitation, I-5/French Camp interchange, I-205 auxiliary lanes, State Route 99 Manteca six-lane widening, State Route 12 improvements, and the Highway 4 (Crosstown) extension. Services have included construction inspection, constructability review, traffic control planning and review, schedule review, claims analysis, and project closeout services. Project Dates: 10/2014 to Current

CEM-6220 (NEW 05/2019)

- 2 Resident engineer responsible for claims, scheduling, and construction management services for the \$35 million construction of auxiliary lanes along U.S. 50 between Missouri Flat Road and Placerville Drive/Forni Road. Project also involved widening and retrofitting Weber Creek Bridge; construction of retaining walls; road work and electrical work; and construction of a bicycle/pedestrian path along the eastbound auxiliary lane.
- 3 Resident engineer responsible for claims, scheduling, and construction management services for the \$5.5 million project, which involved reconstruction and relocation of a local road (Fair Lane), construction of a series of retaining walls, and construction of a highway on-ramp and auxiliary lane. The project is the first in a multi-phase project to construct an interchange at Ray Lawyer Drive. The project was complicated by phasing, which required the relocation of local utilities and coordinating access to the El Dorado County Sheriff's office and County Administration Buildings.
- 4 Resident engineer responsible for claims, scheduling, and construction support services for multiple projects in 11 counties in Sacramento Valley and Northern Sierra with a construction value of \$65 million. Responsible for the full spectrum of services, including field inspection, traffic and storm water pollution control, submittal review, review of contractor pay requests, cost and schedule control, and material sampling and testing.

Job Title Senior Resident Engineer

Employer Name Caltrans

From: 06/01/1997 To: 5/1/2007

	Duties/Projects	Begin Date	End Date
1	Mr. Flaherty was the Senior Resident Engineer for a \$108 Million-dollar Roadway reconstruction project on Hwy 80. The project included replacement of 7 Bridges in three stages, reprofiling and reconstructing 11 miles of Hwy 80, replacing drainage and all other highway elements. The project was complicated with over 300 change orders and 87 listed claims. Mr. Flaherty resolved all claims and defended the State successfully in 10 Dispute Resolutions hearings.	1/2001	6/2005
2	Mr. Flaherty was the Senior Resident Engineer on a \$35Millon dollar Roadway widening, reconstruction and Sewer replacement project in Placerville California. The project was complicated by multiple change orders related to the City of Placerville sewer main replacement which was part of the project. Additionally, the project encountered several unknown hazardous waste sites that were required to be remediated during construction.	6/2005	5/2007
