CADD USERS MANUAL

Issued by
STATE OF CALIFORNIA
CALIFORNIA STATE TRANSPORTATION AGENCY
DEPARTMENT OF TRANSPORTATION
DIVISION OF DESIGN
OFFICE OF CADD & ENGINEERING GIS SUPPORT

FOREWORD

This manual establishes the CADD standards used by Caltrans. Local agencies and consultants must also use these established standards on projects within the Caltrans’ right of way. This manual illustrates some of the workflow involved throughout the project delivery process.

This manual details many of the standard resource files needed to complete a project within the Caltrans’ right of way. For local agencies and consultants the Caltrans resource files can be accessed on the internet at:

https://misc-external.dot.ca.gov/cadd/webpage.php

The CADD Users Manual will be available only from the internet website and will be incrementally updated by section (as needed). The CADD Users Manual is not published as a printed manual. The CADD Users Manual can be found at:

https://dot.ca.gov/programs/design/manual-cadd-users-manual

You can subscribe to automatic email notifications of Manual changes and updates at the above website.

If a user chooses to print a hard copy of the Manual, the user is responsible for keeping their hard copy up to date and current.

Questions concerning the contents of the Manual can be directed to:
