SUBTOTAL											84.21	83.75	64.75	71.50	

Note:
The Panel information shown for either roadside or overhead signs is predominantly used by the sign panel manufacturer.
Sign panels that are contractor furnished (and not Department furnished), are required to show the panel information on Sign Quantities sheets.

Sign Quantities sheets SQ-4, SQ-5, and SQ-5a show two ways the Roadside Sign Panel Quantities table can be presented.

- OPTION A (Examples "65 SQ-4" and "65 SQ-5") has each sign listed on a separate row with the sheet number and sign number shown.
- OPTION B (Example "65 SQ-5a") lists each sign designation once (in a single row) with a column added for the number of sign panels needed for each sign designation in the entire project. A Comments column is included to identify which plan sheets the sign panels are located on within the project.

THIS EXAMPLE IS ONE OF MANY EXAMPLES OF THE VARIOUS TYPES OF PROJECT PLAN SHEETS FROM THE SAME CONSTRUCTION PROJECT, "ROUTE 65 BYPASS PROJECT."

SIGN QUANTITIES SHEET, EXAMPLE "65 SQ-4"

OPTION - A

SIGN QUANTITIES SQ-4
