

Revision Log for Geosynthetic Reinforced Embankments

Implementation Date: January 2026

- To align with the updated *Geotechnical Design Reports* module, the Reporting section was updated to include:
 - Reporting specifics for the Analysis and Design section of the PGDR and GDR.
 - Reporting specifics for the Recommendations section of the PGDR and GDR.
- Editorial updates to the Investigations section to achieve consistency among all design modules.
- Removed content that now resides in the *Seismic Overall Slope Stability* module

Implementation Date: September 2023

- First Version
