

# Submit New Mix Design (CEM-3512)

Login to [JMF](#), and click on “HMA Design Dashboard” in the header. Using the “HMA Design Dashboard” button you will need to click the “Start New HMA Design “ (CEM-3512) button. Proceed through the “New Hot Mix Asphalt (HMA) Design Data” form to populate your CEM-3512. The following tables will require population: HMA Producer Information (See Note 1), HMA Qualified Laboratory Information (See Note 1), Hot Mix Asphalt (HMA) Information, Notes.

Note 1: If a vendor or lab of interest is not listed or need adjustment, please contact your [Materials Administrator](#).

Click the “Save” button once you are ready to submit the general information for your mix design. You will be given the option to print your CEM-3512. You will want to review the form to ensure that all the general information is correct. You can also review your design data by clicking the “HMA Design Dashboard” button in the header. This will take you to all your submitted mix designs. Here you can view detailed mix designs, print mix designs, and edit mix designs. Additionally, you can view your JMF Design ID (JMF3512-YYYY-#) that will be used to submit mix design test data through [DIME](#) (see “Submit Test Data (DIME)”).
