

Dashboard

Click the “JMF Submittal Dashboard” or “HMA Design Dashboard” buttons in the [JMF](#) header. The dashboards will provide you with your JMF submittals and associated JMF designs. From the “JMF Submittal Dashboard” you can clone (duplicate CEM-3511), review existing submittals and their status, and print CEM-3511, CEM-3512, and CEM-3513. The “HMA Design Dashboard” allows you to review samples submitted, input CEM-3512 details, edit CEM-3512s, disable or enable mix designs, and print CEM-3512.

You can review the status of your JMF submittal in the “JMF Submittal Dashboard”. Each submittal will have a status notification under the “Status” column. Click the “?” next to “This is your home for your JMF submittals” at the top of the page to open the status legend. This legend will indicate what each status notification represents.
