

Login

Login to [Job Mix Formula \(JMF\)](#) using your Data Interchange for Materials Engineering (DIME) login. If you do not have a DIME account, you must first create one by visiting the DIME [login page](#). This will provide you with the DIME, "Not Registered?", guidelines for obtaining an account.

After logging in you can review the labs you are associated with by clicking on your name in the header. You can use the lab association feature to filter through JMF submittals. To resolve any discrepancies with lab association, use the "Not Registered?" guidelines on the DIME [login page](#).
