Dear:

Your request dated (date) for permission to cross the (name of bridge), Br. No. (xxx), with construction overloads is approved in accordance with the provisions of Section 5-1.37B, Load Limits, of the Standard Specifications, subject to the following conditions:

1. The approaches at each end of the bridge must be completed to the grade required to provide a smooth transition to the bridge roadway, and must be maintained in a smooth and uniform condition at all times while construction equipment is in use, for a length of not less than 150 feet measured from the bridge ends. Local depressions in the approaches in the vicinity of the bridge ends will not be permitted.

2. Construction equipment, either loaded or unloaded, must be operated at all times at a speed and in a manner so that no bouncing of the equipment occurs while the equipment is crossing the bridge.

3. Construction equipment must be confined to the construction equipment lane by means of substantial, temporary physical barriers.

4. Only one construction overload will be permitted on the bridge at any time.

5. On completion of the operation that requires the use of a construction overload, the bridge roadway must be cleaned and physical barriers used in connection with the construction equipment lane must be removed and disposed of away from the job site.

Note: Other conditions or restrictions may be added as necessary to suit particular job circumstances
