

ILLEGAL DUMPING IS RUBBISH

Properly dump your garbage to reduce
California's stormwater pollution!
Five easy tips to reduce pollutants:

APPLIANCES

When illegally dumped, appliances can release toxins that get washed away with rain and end up in our water bodies, polluting our water.

- TIP 1: Donate or recycle appliances.**
TIP 2: Properly dispose at your local dump.

FURNITURE

When dumped on the side of the roadway all furniture not only causes a safety hazard, but can also breakdown and get into local water bodies, causing pollution.

- TIP 3: Contact local waste management for bulky pick-up or locate a dump for drop-off.**

VEGETATION

Improperly dumped vegetation can flow to waterways, creating an imbalance of nitrates in water and thus harm aquatic life.

- TIP 4: Tarp loads to reduce biodegradable waste on highways.**
TIP 5: Use a green waste bin or consider composting biodegradable waste.

Don't risk a \$10k fine
& up to
6 months in jail

Simple changes in disposal of rubbish can help keep California's highways, waterways and bodies of water clean!
