ILLEGAL DUMPING IS RUBBISH

Properly dump your garbage to reduce California's stormwater pollution!
Five easy tips to reduce pollutants:

**APPLIANCES**

When illegally dumped, appliances can release toxins that get washed away with rain and end up in our water bodies, polluting our water.

**TIP 1:** Donate or recycle appliances.
**TIP 2:** Properly dispose at your local dump.

**FURNITURE**

When dumped on the side of the roadway all furniture not only causes a safety hazard, but can also breakdown and get into local water bodies, causing pollution.

**TIP 3:** Contact local waste management for bulky pick-up or locate a dump for drop-off.

**VEGETATION**

Improperly dumped vegetation can flow to waterways, creating an imbalance of nitrates in water and thus harm aquatic life.

**TIP 4:** Tarp loads to reduce biodegradable waste on highways.
**TIP 5:** Use a green waste bin or consider composting biodegradable waste.

Simple changes in disposal of rubbish can help keep California's highways, waterways and bodies of water clean!
