

UPCOMING: LOW-CARBON TRANSPORTATION MATERIALS GRANTS PROGRAM

Program Summary

The Low-Carbon Transportation Materials Grants Program Funding (LCTM) program is a discretionary program that focuses on accelerating the use of materials and products that have lower levels of embodied greenhouse gas emissions.

Note: This program has two NOFOs: one for State applicants and one for non-State applicants. This factsheet focuses on non-State applicants.

Eligibility

Eligible Applicants

Non-State Applicants: metropolitan planning organizations, local governments or agencies, Federally recognized tribes, Federal Lands Management Agencies, and other agencies

Eligible Projects

Federal-aid highways, Tribal transportation facilities, Federal lands transportation facilities, Federal lands access facilities.

Want to Apply? Here are some important Details

- **Review NOFO once it is published. It will contain the latest information.**
- Any materials funded under this program would need to meet other applicable requirements, including Buy America and the Build America, Buy America Act.

Funding Details

Cost Sharing:

Funds are eligible for up to 100% Federal share, LCTM funds may only be applied to eligible activities associated with the use of the low carbon transportation material.

Total Funding Available:

\$2 Billion (\$800 Million for non-State applicants and \$1.2 Billion for States)

Important Dates

NOFO Opening Date:

August 2024

Partnerships

- Additional supporting documents (e.g., technical information, letters of endorsement) may be submitted as Supporting Documentation.
