

How to Determine Your Project's Census Tract or Block Group Numbers from a street address

- 1) Go to <https://tigerweb.geo.census.gov/tigerweb/>
- 2) In the "Layers" Tab, select "Census Tracts and Blocks".
- 3) Input your project's address or an approximate address for the project. Click on the magnifying glass symbol.

- 4) A new window will appear with the census tracks/blocks for your location. Click on the "Layers" Tab and deselect "2010 Census Blocks". Select either "Census Tracts" or "Census Block Groups" to isolate the Census geography you need.

- 5) Zoom in/out of the map to see census tract and block group numbers. Census Tracts will be labeled "CT" and Census Block Groups will be labeled "BG."
