Part A3: Project Type

PROJECT TYPE: (Use the drop down menu to select.) Infrastructuree Largeee eeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeee
Will construction funds be requested for this project? * Large Projects are not required to request construction funds Yes No
Explain when and what funds are proposed to fund the construction phase.
Indicate any of the following plans that your agency currently has: (Check all that apply)
☐ Bicycle Plan ☐ Pedestrian Plan ☐ Safe Routes to School Plan ☐ Active Transportation Plan ☐ None
Other plans that include Bicycle and/or Pedestrian Improvements
Is your project in a current Plan? Yes No
PROJECT SUB-TYPE (check all Project Sub-Types that apply):
☐ Bicycle Transportation % of Project 0 %
Pedestrian Transportation % of Project 0 %
Safe Routes to School (Also fill out Bicycle and Pedestrian Sub-Type information above)
For a project to qualify for Safe Routes to School designation, the project must directly increase safety and convenience for public school students to walk and/or bike to school. Safe Routes to Schools infrastructure projects must be located within two miles of a public school or within the vicinity of a public school bus stop and the students must be the intended beneficiaries of the project. For Safe Routes to School non-infrastructure, the program must benefit school students/parents and primarily be based at the school.
Safe Routes for Seniors
Safe Routes for Seniors projects increase walking, biking, and safety among older adults and create routes that connect to activities that improve quality of life.
Trails (Multi-use and Recreational): (Also fill out Bicycle and Pedestrian Sub-Type information above)
Do you feel a portion of your project is eligible for federal Recreational Trail funding?
If yes, estimate the total project costs that are eligible for the Recreational Trail funding:
If yes, estimate the % of the total project costs that serve "transportation" uses?
Applicants intending to pursue "Recreational Trails Program funding" must submit the required information to the California Department of Parks and Recreation prior to the ATP application submissions deadline. (See the Application Instructions for details)
*Recreational Trail funding can only fund work outside of the roadway Right-of-way.
Fill out the school information only if you selected the Safe Routes to school project sub-type option above.
How many schools does the project impact/serve:

For each school benefited by the project: 1) Fill in the school and student information; and 2) Include the required

Rig	ht of Way (R/W) Impacts (Check all that apply)
	Project is 100% within the Implementing Agency's R/W and/or is within their control at the time of this application submittal. (This includes temporary construction easements)
	Project will likely require R/W in fee ownership, permanent easements and/or temporary construction easements from private owners and/or will require utility relocations from utility companies outside that implementing agency's governmental control.
	Project will likely encroach into Caltrans R/W requiring easements, encroachment permits and/or other approvals.
	Is Caltrans the "Implementing Agency"?
	*See the application instructions for more details on the required coordination, documentation and approval from Caltrans.
	The applicant must attach the approved and signed Stare Highway Project Impact Assessment Form for ATP projects impacting Caltrans R.W.
	The following project details must match the information shown in the approved State Highway System Project Impact Assessment Form attached above:
	What % of the project (by area) is within Caltrans R/W?
	What is the total construction cost within Caltrans R/W?
	What level of Caltrans project development oversite has been determined to be needed by Caltrans?
	Is the project expected to be tracked by Caltrans as a "Local Assistance" or "Capital" project?
	Has the project schedule been developed to account for the additional time needed for Caltrans to complete its required oversight responsibilities?
	Project will likely require R/W, Easements, encroachment and/or approval involving Governmental (excluding Caltrans - as Caltrans impacts are documented above), Environmental, or Railroad owner's property.
	*See the application instructions for more details on the required coordination and documentation from these agencies.
	Attach a letter of support or neutrality from each separate agency. Combine all letters in one pdf attachment.
	The following information should be based on specific prior coordination and agreement between the agencies:
	What is the total additional months needed (all project phases) for all of these agencies to complete their required oversite responsibilities and to complete any required actions that are necessary based on the expected R/W impacts?
	Has the project schedule been developed to account for this time?
	Program/Plan will likely have an open street/demonstration on state highway.

INFRASTRUCTURE PROJECTS:

Part A5: Project Schedule

NOTES: 1) Per CTC Guidelines, all project applications must be submitted with the expectation of receiving federal funding and therefore the schedule below must account for the extra time needed for federal project delivery requirements and approvals, including a NEPA environmental clearance and for each CTC allocation there must also be a Notice to Proceed with Federally Reimbursable work.

- 2) Prior to estimating the durations of the project delivery tasks (below), applicants are highly encouraged to review the appropriate chapters of the Local Assistance Procedures Manual and work closely with District Local Assistance Staff.
- 3) The proposed CTC Allocation dates must be between July 1, 2023 and June 30, 2027 to be consistent with the available ATP funds for Cycle 6.

A&ED	Project Delivery Phase:
	Will ATP funds be used in this phase of the project?
	Proposed CTC "PA&ED Allocation" Date:
	Notice to Proceed with Federally Reimbursable ATP Work:
	Expected or Past Start Date for PA&ED activities:
	Time to complete the separate CEQA & NEPA studies/approvals: months (See note #2, above)
	Expected or Past Completion Date for the PA&ED Phase:
4	* Applications showing the PA&ED phase as complete, must include/attach the signature pages for the CEQA and NEPA documents, which include project descriptions covering the full scope.
S&E F	Project Delivery Phase:
ector.	Will ATP funds be used in this phase of the project? Yes No
	Proposed CTC "PS&E Allocation" Date:
	Notice to Proceed with Federally Reimbursable ATP Work:
	Expected or Past Start Date for PS&E activities:
	Time to complete the final Plans, Specification & Estimate:
	Expected or Past Completion Date for the PS&E Phase:
	* Applications showing the PS&E phase as complete, must include/attach the signed & Stamped Title Sheet for the plans and approval page of the specifications.
(1)	
light o	f Way Project Delivery Phase:
	Will ATP funds be used in this phase of the project?
	Proposed CTC "R/W Allocation" Date:

ATP FUNDING TYPE REQUESTED:

Per the CTC Guidelines, all ATP projects over \$1M must be eligible to receive federal funding. Agencies with projects under \$1M, especially ones being implemented by agencies who are not familiar with the federal funding process, are encouraged to request State funding. A request for State-Only funds does not guarantee it will be received.

or State-Only funds does not guarantee it will be received.	unding process, are encourage	sa to request otate fullaring. A request

(to be used for qualifying as benefiting a DAC only)

Percentage of students eligible for the Free or Reduced Price Meals Programs:
(to be used for severity calculation only)

The Healthy Places Index (HPI) includes a composite score for each census tract in the state. The higher the score, the healthier the community conditions based on 25 community characteristics. The scores are then converted to a percentile to compare it to other tract the state. A census tract must be in the 25th percentile or less to qualify as a disadvantaged community. Data and maps found can be found at California Healthy Places Index at https://healthyplacesindex.org. Access the map directly at https://map.healthyplacesindex.org. Access the map directly at https://map.healthyplacesindex.org/how-to/.

Question #2

QUESTION #2

POTENTIAL FOR INCREASED WALKING AND BICYCLING, ESPECIALLY AMONG STUDENTS, INCLUDING THE IDENTIFICATION OF WALKING AND BICYCLING ROUTES TO AND FROM SCHOOLS, TRANSIT FACILITIES, COMMUNITY CENTERS, EMPLOYMENT CENTERS, AND OTHER DESTINATIONS; AND INCLUDING INCREASING AND IMPROVING CONNECTIVITY AND MOBILITY OF NON-MOTORIZED USERS. (0-38 POINTS)

<u>Safe Routes to School projects:</u> The following information related to the Safe Routes to School Projects data was already entered in part 3 of the application.

Total	0	0
School	Total Student Enrollment	Approx. # of Students Living Along School Route Proposed

A. Statement of project need. Describe the community and the issue(s) that this project will address. How will the proposed project benefit the non-motorized users of all ages and varying abilities, including students, older adults, and persons with disabilities? What is the project's desired outcome and how will the project best deliver that outcome? (0-19 points)

Discuss:

- · Destinations and key connectivity the project will achieve.
- · How the project will increase walking and/or biking.
- The lack of mobility if applicable Does the population have limited access to cars, bikes, and transit?
 - o Does the project have an unserved or underserved demand?
- . The local health concerns responses should focus on:
 - Specific local public health concerns, health disparity, and/or conditions in the built and social environment that affect the
 project community and can be addressed through the proposed project. Please provide detailed and locally relevant answers
 instead of general descriptions of the health benefits of walking and biking (i.e. "walking and biking increase physical activity").
 - Local public health data demonstrating the above public health concern or health disparity. Data should be at the smallest geography available (state or national data is not sufficient). One potential source is the Healthy Places Index (HPI) (http://ee healthy.placesindex.org)
- For combined I/NI projects: Discuss need for an encouragement and education program.

QUESTION #3

Total

POTENTIAL FOR REDUCING THE NUMBER AND/OR RATE OF PEDESTRIAN AND BICYCLIST FATALITIES AND INJURIES, INCLUDING THE IDENTIFICATION OF SAFETY HAZARDS FOR PEDESTRIANS AND BICYCLISTS. (0-20 POINTS)

A. Describe the project location's history of pedestrian and bicycle collisions resulting in fatalities and injuries to non-motorized users, which this project will mitigate. (10 points max)

Applicants are encouraged to use the UC Berkeley SafeTREC TIMS tool, which was specifically designed for the ATP to produce these documents in an efficient manner. Applicants with access to alternative collision data tools and training can utilize their choice of methods/tools. Applicants must respond to question 1 or 2, and have the option to respond to both.

- For applications using the TIMS ATP tool, attach the following:
 - Collision Heat-map of the area surrounding the project limits demonstrating the relative collision history of the project limits in relation to the overall jurisdiction/community's collision history
 - Project Area Collision Map identifying the past crash locations within the project limits
 - Collision Summaries and collision lists/reports demonstrating collision trends, collision types, and collision details C.
 - For a Combined I/NI project If the NI project area is different than the infrastructure portion, the applicant may attach NI related heat-maps, etc. in Attachment J

	nave the collision data above ata below. (Examples include), Crowd Source, etc.)

STATE OF CALIFORNIA • DEPARTMENT OF TRANSPORTATION ATP APPLICATION FORM LAPG 25-U (REV 03/2022)

Referencing the project-area collision summaries/data provided in questions 1 and/or 2, discuss the extent to which the proposed project limits represents one of the agency's top priorities for addressing ongoing safety and discuss how the proposed safety improvements correspond to the types and locations of the past collisions. Consider the safety concerns of students, older adults, and persons with disabilities in your response.

For Projects with Non-Infrastructure elements (Combined I/NI projects):ee As appropriate, describe how the NI program elements: educates bicyclists, pedestrians, and/or drivers about safety hazards for pedestrians and bicyclists; and encourages safe behavior (Max of 900 Words) Words Remaining: B. Safety Countermeasures (10 points max) Describe how the project improvements will remedy (one or more) potential safety hazards that contribute to pedestrian and/or bicyclist injuries or fatalities. Referencing the information you provided in Part A, demonstrate how the proposed countermeasures directly address the underlying factors that are contributing to the occurrence of pedestrian and/or bicyclist collisions. Combined I/NI projects should address both infrastructure and non-infrastructure elements. 1. Reduces speed or volume of motor vehicles in the proximity of non-motorized users? Yes No a. Current speed and/or volume: (Max of 200 Words) Words Remaining: b. Anticipated speed and/or volume after project completion : (Max of 200 Words) Words Remaining: 2. Improves sight distance and visibility between motorized and non-motorized users? Yes No a. Current sight distance and/or visibility issue: (Max of 200 Words) Words Remaining: Anticipated sight distance and/or visibility issue resolution: (Max of 200 Words) Words Remaining: 3. Eliminates potential conflict points between motorized and non-motorized users, including creating Yes No physical separation between motorized and non-motorized users? a. Current conflict point description: (Max of 200 Words) Words Remaining: b. Improvement that addresses conflict point: (Max of 200 Words) Words Remaining: 4. Improves compliance with local traffic laws for both motorized and non-motorized users? Yes No a. Which Law: If Other, please explain b. How will the project improve compliance: (Max of 200 Words) Words Remaining:

Words Remaining:

STATE OF CALIFORNIA • DEPARTMENT OF TRANSPORTATION ATP APPLICATION FORM LAPG 25-U (REV 03/2022)

5.	Ad	dresses inadequate vehicular traffic control devices?	Yes	No
	a.	List traffic controls that are inadequate: (Max of 200 Words)	Words Remaining:	
	b.	How are they inadequate? (Max of 200 Words)	Words Remaining:	
	C.	How does the project address the inadequacies? (Max of 200 Words)	Words Remaining:	
8.		dresses inadequate or unsafe bicycle facilities, trails, crosswalks and/or sidewalks? List bicycle facilities, trails, crosswalks and/or sidewalks that are inadequate: (Max of 200 Words)	Yes Words Remaining:	No
	b.	How are they inadequate? (Max of 200 Words)	Words Remaining:	
	C.	How does the project address the inadequacies? (Max of 200 Words)	Words Remaining:	
7.		minates or reduces behaviors that lead to collisions involving non-motorized users? List of behaviors: (Max of 200 Words)	Yes Words Remaining:	No

Question #4

QUESTION #4

PUBLIC PARTICIPATION and PLANNING (0-10 POINTS)

Describe the community based public participation process that culminated in the project. Combined I/NI projects should address both infrastructure and non-infrastructure elements.

project? How did the applicant analyze the wide range of alternatives an beneficial outcomes? (3 points max) (Max of 400 words)	Words Remaining:	
Who: Describe who was/will be engaged in the identification and develop Describe and provide documentation of the type, extent, and duration of stakeholders. Describe the strategies used to address engagement chall unique engagement challenges that the community faced. (3 points max	outreach and engagement conducted with relevant lenges that arose due to the COVID-19 pandemic at	
What: Describe the feedback received during the stakeholder engageme planning process has improved the project's overall effectiveness at me (Max of 400 words)		
Describe how stakeholders will continue to be engaged in the implement (Max of 400 words)	ration of the project. (1 point max) Words Remaining:	
Is this project specifically listed in an approved Active Transportation Pla and the public engagement process used to develop the plan.(1 point ma (Max of 300 words)		e plan
		,
Attach the applicable plan page with the project highlight:		
Attach any applicable Public Participation & Planning documents:		

Question #5

CONTEXT SENSITIVE BIKEWAYS/WALKWAYS and INNOVATIVE PROJECT ELEMENTS (0-5 POINTS)

A. How are the "recognized best" solutions employed in this project appropriate to maximize user comfort and for the local community context?

As you address this question, consider the following:

- · The posted speed limits and actual speed;
- The existing and future motorized and non-motorized traffic volume;
- The widths for each facility;
- The adjacent land use; and
- How the project is advancing a low(er) stress environment on each facility or a low stress network:
 - o What is the current stress level? (low, medium, or high?)
 - o If the stress level is medium or high, is the project going beyond minimum design standards to maximize comfort for all ages and abilities?
 - o What features are included to promote low-stress, comfortable, and safe walking and/or biking conditions?
 - o Does the project expand on or create a low-stress network?

(10	Max of 700 words)	Words Remaining:

TRANSFORMATIVE PROJECTS (0-5 POINTS)

non	-infrastructure component. (Max of 750 words)	Words Remaining:
	scribe how other new or proposed funded projects or policies in the vicinity of this projure of this project.	ject will attribute to the transformative
As y	you address this question consider items like the following:	
•	Transit	
	The overall non-motorized network	
	Land Use	
	Local policies and/or ordinances	
Plea	ase attach documentation that supports the transformative nature of the project. This could in	clude:
	The meeting minutes voting to fund the project, or	
	The approved environmental document, or	
	An HCD Prohousing Designation certification or a copy of the submitted application form, or	
	A local Housing Element that is in compliance with the State Housing Element Law, or	
•	Other important documentation demonstrating the transformation	
(Ма	x of 600 words)	Words Remaining:

Question #7

QUESTION #7

SCOPE AND PLAN LAYOUT CONSISTENCY AND COST EFFECTIVENESS (0 - 7 points)

A. The evaluators will consider the following: (7 points max)

- · Consistency between the Layouts/maps, Engineer's estimate and Proposed scope
- · Compliance with the Engineer's Checklist and cost effectiveness
- · Complete project schedule

B. For combination I/NI projects, the 25-R will be evaluated for:

- · How well it reflects the applicant's responses throughout this application
- · How well the overall scope meets the Purpose and Goals for the ATP, as defined by the CTC Guidelines
- · Compliance with the ATP Non-Infrastructure Program Guidance

Question #8
