Ric	tht of Way (R/W) Impacts (Check all that apply)
	Project is 100% within the Implementing Agency's R/W and/or is within their control at the time of this application submittal. (This includes temporary construction easements)
	Project will likely require R/W in fee ownership, permanent easements and/or temporary construction easements from private owners and/or will require utility relocations from utility companies outside that implementing agency's governmental control.
3 5	Project will likely encroach into Caltrans R/W requiring easements, encroachment permits and/or other approvals.
	Is Caltrans the "Implementing Agency"?
	*See the application instructions for more details on the required coordination, documentation and approval from Caltrans.
	The applicant must attach the approved and signed Stare Highway Project Impact Assessment Form for ATP projects impacting Caltrans R/W.
	The following project details must match the information shown in the approved State Highway System Project Impact Assessment Form attached above:
	What % of the project (by area) is within Caltrans R/W?
	What is the total construction cost within Caltrans R/W?
	What level of Caltrans project development oversite has been determined to be needed by Caltrans?
	Is the project expected to be tracked by Caltrans as a "Local Assistance" or "Capital" project?
	Has the project schedule been developed to account for the additional time needed for Caltrans to complete its required oversight responsibilities?
3 5	Project will likely require R/W, Easements, encroachment and/or approval involving Governmental (excluding Caltrans - as Caltrans impacts are documented above), Environmental, or Railroad owner's property.
	*See the application instructions for more details on the required coordination and documentation from these agencies.
	Attach a letter of support or neutrality from each separate agency. Combine all letters in one pdf attachment.
	The following information should be based on specific prior coordination and agreement between the agencies:
	What is the total additional months needed (all project phases) for all of these agencies to complete their required oversite responsibilities and to complete any required actions that are necessary based on the expected R/W impacts?
	Has the project schedule been developed to account for this time?
	Program/Plan will likely have an open street/demonstration on state highway.

INFRASTRUCTURE PROJECTS:

Part A5: Project Schedule

NOTES: 1) Per CTC Guidelines, all project applications must be submitted with the expectation of receiving federal funding and therefore the schedule below must account for the extra time needed for federal project delivery requirements and approvals, including a NEPA environmental clearance and for each CTC allocation there must also be a Notice to Proceed with Federally Reimbursable work.

- 2) Prior to estimating the durations of the project delivery tasks (below), applicants are highly encouraged to review the appropriate chapters of the Local Assistance Procedures Manual and work closely with District Local Assistance Staff.
- 3) The proposed CTC Allocation dates must be between July 1, 2023 and June 30, 2027 to be consistent with the available ATP funds for Cycle 6.

PA&ED Project Delivery Phase:
Will ATP funds be used in this phase of the project?
Proposed CTC "PA&ED Allocation" Date:
Notice to Proceed with Federally Reimbursable ATP Work:
Expected or Past Start Date for PA&ED activities:
Time to complete the separate CEQA & NEPA studies/approvals: months (See note #2, above)
Expected or Past Completion Date for the PA&ED Phase:
* Applications showing the PA&ED phase as complete, must include/attach the signature pages for the CEQA and NEPA document which include project descriptions covering the full scope.
PS&E Project Delivery Phase:
Will ATP funds be used in this phase of the project? Yes No
Proposed CTC "PS&E Allocation" Date:
Notice to Proceed with Federally Reimbursable ATP Work:
Expected or Past Start Date for PS&E activities:
Time to complete the final Plans, Specification & Estimate: months
Expected or Past Completion Date for the PS&E Phase:
* Applications showing the PS&E phase as complete, must include/attach the signed & Stamped Title Sheet for the plans and approval page of the specifications.
Right of Way Project Delivery Phase:
Will ATP funds be used in this phase of the project?
Proposed CTC "R/W Allocation" Date:
Notice to Proceed with Federally Reimbursable ATP Work:
Expected or Past Start Date for R/W activities:
Time to complete the R/W Engineering, Acquisition, and Utilities:
Expected or Past Completion Date for the R/W Phase:
* PS&E and Right of Way phases can be allocated at the same CTC meeting.
* Applications showing the R/W phase as complete, must include/attach the Caltrans approved R/W Certification.
Typpinamono enemig in a rear prima a compress, macamana and a compress, macamana a pp. 100 a compress, macamana a
Construction Project Delivery Phase:
Will ATP funds be used in this phase of the project? Yes No
Proposed CTC "CON Allocation" Date:
Notice to Proceed with Federally Reimbursable ATP Work:
Expected Start Date for Construction activities:
Time to complete the Construction activities: months
Expected or Past Completion Date for the CON Phase:

Part A6: Project Funding (1,000s)

Project Phase	Total Project Costs	Total ATP Funding	ATP Allocation Year *	Total Non-ATP Funding **	Non- Participating Funding	"Prior" ATP Funding	Leveraging Funding	Future Local Identified Funding
PA&ED	얼성	14:		~	æ.	ē	<u>.</u>	(94)
PS&E	. ₩ .3	* :		+	-	-	-	S.E.
R/W	.≅å	i e :		50		5	i.e	1 /2 1

NI-CON/ PLAN	5 2			-	=	5.	INT.	15 5 1
TOTAL	*:	*		-	-		-	: (%)

^{*} The CTC Allocation-Year is calculated based on the information entered into the "Project Schedule" section.

ATP FUNDING TYPE REQUESTED:

Per the CTC Guidelines, all ATP projects over \$1M must be eligible to receive federal funding. Agencies with projects under \$1M, especially ones being implemented by agencies who are not familiar with the federal funding process, are encouraged to request State funding. A request for State-Only funds does not guarantee it will be received.

Do you believe your project warrants receiving state-only funding?

If "Yes", provide a brief explanation. (Max of 50 Words)

Words Remaining:

If "Yes", applicants requesting SHA must also attach an "Exhibit 25-F"

ATP PROJECT PROGRAMMING REQUEST (PPR):

Using the Project Schedule, Project Funding, and General Project information provided, this electronic form has automatically prepared the following PPR pages. Applicants must review the information in the PPR to confirm it matches their expectations.

^{**} Applicants must ensure that the "Total Non-ATP Funding" values show in this table match the overall Non-ATP Funding values they enter into Page 2 of the PPR (later in this form)

Note: Projects not providing proof will be disqualified and not be evaluated.

Part A7: Screening Criteria

The following Screening Criteria are requirements for applications to be considered for ATP funding. Failure to demonstrate a project meets these criteria will result in the disqualification of the application.

Are adjacent properties undeveloped or under-developed where standard "conditions of development" Yes could be placed on future adjacent redevelopment to construct the proposed project improvements? Words Remaining: Words Remaining:	Caltrans funding prog	ject currently (or has it ever been) formally programmed in an DTD	
Are any elements of the proposed project directly or indirectly related to the intended improvements of a past or future development or capital improvement project? If 'Yes', explain why the other project cannot fund the proposed project. (Max of 200 Words) Words Remaining: Are adjacent properties undeveloped or under-developed where standard "conditions of development" words Remaining: Are adjacent properties undeveloped or under-developed where standard "conditions of development" sould be placed on future adjacent redevelopment to construct the proposed project improvements? If 'Yes', explain why the development cannot fund the proposed project. (Max of 200 Words) Words Remaining: Insistency with an adopted regional transportation plan: Is the project consistent with the relevant adopted regional transportation plan that has been developed and 'Yes updated pursuant to Government Code Section 65080? The applicant must provide that portion of Regional Transportation Plan showing that the proposed project is consistent. Attach of ONLY the following elements of the plan: cover page and pages linking the proposed project to the plan. Highlighted and/or attachment to clearly identify the connection. Note: Projects not providing proof will be disqualified and not be evaluated.			'A, MPO and/or Yes
Are any elements of the proposed project directly or indirectly related to the intended improvements of a past or future development or capital improvement project? Must attach a copy of CalEnviroScreen page for	calculation only)				

School Enrollment % of Students Eligible for FRPM

School Name At least 75% of public school students in the project area are eligible to receive free or reduced-price meals under the National School Lunch Program. Data is available at: https://www.cde.ca.gov/ds/ad/documents/frpm1920.xlsx (auto filled from Part A). Applicants using this measure must demonstrate how the project benefits the school students in the project area. Project must be located within two miles of the school(s) represented by this criteria. NOTE: Use the value from Column V only! The School Name is in Column G, the Enrollment is in Column R. School Name School Enrollment % of Students Eligible for FRPM Highest percentage of students eligible from above (autofill): (to be used for qualifying as benefiting a DAC only) Percentage of students eligible for the Free or Reduced Price Meals Programs: (to be used for severity calculation only) The Healthy Places Index (HPI) includes a composite score for each census tract in the state. The higher the score, the healthier the community conditions based on 25 community characteristics. The scores are then converted to a percentile to compare it to other tracts in the state. A census tract must be in the 25th percentile or less to qualify as a disadvantaged community. Data and maps found can be found at California Healthy Places Index at https://healthyplacesindex.org. Access the map directly at https://map.healthyplacesindex.org/. View step-by-step HPI tutorial videos at: https://healthyplacesindex.org/how-to/. Census Tract/Block Group/Place # **HPI Percentile** Population The Lowest HPI Percentile from above (autofill): (to be used for qualifying as benefiting a DAC only) HPI percentile for the community benefited by the project: (to be used for severity calculation only) Must attach a copy of the HPI page for each census tract listed above. Attach all pages as one pdf. Other Project is located within Federally Recognized Tribal Lands (typically within the boundaries of a Reservation or Rancheria) or is being submitted by a federally recognized Tribal Government? Yes No If a project applicant believes a project benefits a disadvantaged community but the project does not meet the aforementioned criteria due to a lack of accurate Census data or CalEnviroScreen data that represents a small neighborhood or unincorporated area, the applicant must submit for consideration a quantitative assessment to demonstrate that the community's median household income is at or below 80% of that state median household income. (Max of 100 Words) Words Remaining: Regional definition: For the statewide and small urban & rural competitive portions of the Active Transportation Program a regional

definition of disadvantaged communities must be adopted as part of a regular 4-year cycle adoption of a Regional Transportation Plan (RTP)/Sustainable Communities Strategy (SCS) by an MPO or RTPA per obligations with Title VI of the Federal Civil Rights Act of 1964. Any regional definition, such as "environmental justice communities" or "communities of concern," must document a robust public outreach process that includes the input of community stakeholders, and be stratified based on severity. If the applicant believes a project benefits a disadvantaged community based on an adopted regional definition, the applicant must submit for consideration the regional definition, as well as how their specific community qualifies under that definition. (Max of 200 Words) Words Remaining:

C. Direct Benefit: (0 - 4 points)

1.	Explain how the project closes a gap, provides connections to, and/or addresses a deficiency in an active transportation network and	
	how the improvements meet an important need of the disadvantaged community. Address any issues of displacement that may occu	r
	as a result of this project, if applicable. If displacement is not an issue, explain why it is not a concern for the community.	
	(Max of 500 Words) Words Remaining:	

Auto-populated with data from Part A1 and A2

STATE OF CALIFORNIA • DEPARTMENT OF TRANSPORTATION ATP APPLICATION FORM LAPG 25-U (REV 03/2022)

Auto calculated

125	5	
D.	Project Location: (0 - 2 points) Is your project located within a disadvantaged community?	2
E.	Severity: (0 - 4 points)	

Question #2

QUESTION #2

POTENTIAL FOR INCREASED WALKING AND BICYCLING, ESPECIALLY AMONG STUDENTS, INCLUDING THE IDENTIFICATION OF WALKING AND BICYCLING ROUTES TO AND FROM SCHOOLS, TRANSIT FACILITIES, COMMUNITY CENTERS, EMPLOYMENT CENTERS, AND OTHER DESTINATIONS; AND INCLUDING INCREASING AND IMPROVING CONNECTIVITY AND MOBILITY OF NON-MOTORIZED USERS. (0-52 POINTS)

<u>Safe Routes to School projects:</u> The following information related to the Safe Routes to School Projects data was already entered in part 3 of the application.

School	Total Student Enrollment	Approx. # of Students Living Along School Route Proposed
Total	0	0

A. Statement of project need. Describe the community and the issue(s) that this project will address. How will the proposed project benefit the non-motorized users of all ages and varying abilities, including students, older adults, and persons with disabilities? What is the project's desired outcome and how will the project best deliver that outcome? (0-26 points)

Discuss:

- · Destinations and key connectivity the project will achieve
- · How the project will increase walking and/or biking
- The lack of mobility if applicable Does the population have limited access to cars? bikes? and transit?
 - o Does the project have an unserved or underserved demand?
- The local health concern responses should focus on:
 - o Specific local public health concerns, health disparity, and/or conditions in the built and social environment that affect the project community and can be addressed through the proposed project. Please provide detailed and locally relevant answers instead of general descriptions on the health benefits of walking and biking (i.e. "walking and biking increase physical activity").
 - Local public health data demonstrating the above public health concern or health disparity. Data should be at the smallest geography available (state or national data is not sufficient). One potential source is the Healthy Places Index (HPI) (http://healthyplacesindex.org)
- For combined I/NI projects: Discuss need for an encouragement and education program.

(Max of 900 Words)	Words Remaining:

STATE OF CALIFORNIA • DEPARTMENT OF TRANSPORTATION ATP APPLICATION FORM LAPG 25-U (REV 03/2022)

B. Describe how the proposed project will address the active transportation need: (0-27 points)

What type of active transportation need will the proposed project directly address (select one or more) of the following elements, and discuss how the project will be meeting the identified need.

- 1. Proposed project address:
 - · Closes a gap?

Gap closure = Construction of a missing segment of an existing facility in order to make that facility continuous.

Creates new routes?

New Route = Construction of a new facility that did not previously exist that provides a transportation route.

- Removes barrier to mobility?
 Describe the type of barrier.
- . Other improvements to existing routes?
- · Implements a non-infrastructure program?

	(Max of 400 words)	Words Remaining:	
2.	Applicants must provide a map of each gap closure identifying the location of each: gap clothe barriers and improvements. For projects with non-infrastructure elements, applicants mits a SRTS NI program, identify the school locations.		
3.	Referencing this map, describe the existing route(s) that currently connect the affected tran destinations and why the route(s) are not adequate. (Max of 200 words)	sportation related and community ident Words Remaining:	tified
4.	Referencing this map, describe how the project links or connects, or encourages use existing community identified destinations where an increase in active transportation modes can be school facilities, transit facilities, community, social service or medical centers, employment regional, State or national trail system, recreational and visitor destinations or other communications must be identified.	realized, including but not limited to: so centers, high density or affordable hou	
4.	community identified destinations where an increase in active transportation modes can be school facilities, transit facilities, community, social service or medical centers, employment regional, State or national trail system, recreational and visitor destinations or other community.	realized, including but not limited to: so centers, high density or affordable hou nity identified destinations. Specific	using,

Question #3

QUESTION #3

Total

POTENTIAL FOR REDUCING THE NUMBER AND/OR RATE OF PEDESTRIAN AND BICYCLIST FATALITIES AND INJURIES, INCLUDING THE IDENTIFICATION OF SAFETY HAZARDS FOR PEDESTRIANS AND BICYCLISTS. (0-25 POINTS)

A. Describe the project location's history of pedestrian and bicycle collisions resulting in fatalities and injuries to non-motorized users, which this project will mitigate. (12 points max)

Applicants are encouraged to use the UC Berkeley SafeTREC TIMS-tool, which was specifically designed for the ATP to produce these documents in an efficient manner. Applicants with access to alternative collision data tools and training can utilize their choice of methods/tools. Applicants must respond to question 1 or 2, and have the option to respond to both.

- 1. For applications using the TIMS ATP tool, attach the following:
 - Collision Heat-map of the area surrounding the project limits demonstrating the relative collision history of the project limits in relation to the overall jurisdiction/community's collision history
 - b. Project Area Collision Map identifying the past crash locations within the project limits
 - c. Collision Summaries and collision lists/reports demonstrating collision trends, collision types, and collision details
 - d. For a Combined I/NI project If the NI project area is different than the infrastructure portion, the applicant may attach NI related heat-maps, etc. in Attachment J

Combine the various maps/summaries into one PDF file and attach it in the field below. 2. Applications that do not have the collision data above OR that prefer to provide additional collision data and/or safety in a different format can provide this data below. (Examples include: Collision Rates, Community Observations, Surveys, Street Story (https:// streetstory.berkeley.edu/), Crowd Source, etc.) The data and corresponding methodologies can be included in written/text form and/or via a separate attachment in the field below. (Max of 200 Words) (optional) Words Remaining: Data and methodologies Attachment (optional) 3. From the project-area collision summaries/data provided in questions 1 and/or 2, enter the total reported pedestrian and/or bicycle collisions using the most recent 5 to 11 years of available data: How many years of collision data were used in the Heat Maps and collision summaries: # of Crashes Pedestrian Bicycle Total Average Per Year **Fatalities** Injuries 0

ATP APPLICATION FORM

LAPG 25-U (REV 03/2022)

Referencing the project-area collision summaries/data provided in questions 1 and/or 2, discuss the extent to which the proposed

improvements correspond to the types and locations of the past collisions. Consider the safety concerns of students, older adults, and persons with disabilities in your response.
For Projects with Non-Infrastructure elements (Combined I/NI projects):

As appropriate, describe how the NI program elements: · educates bicyclists, pedestrians, and/or drivers about safety hazards for pedestrians and bicyclists; and

Max of 900 Words)	Words Remaining:
-------------------	------------------

B. Safety Countermeasures (13 points max)

Referencing the information provided in Part A, demonstrate how the proposed countermeasures directly address (one or more) of the following underlying factors that are contributing to the occurrence (or potential occurrence) of pedestrian and/or bicyclist collisions. Combined I/NI projects should address both infrastructure and non-infrastructure elements.

- a. Reduces speed and/or volume of motor vehicles in the proximity of non-motorized users
- b. Improves sight distance and/or visibility between motorized and non-motorized users
- c. Eliminates potential conflict points between motorized and non-motorized users, including creating physical separation between motorized and non-motorized users
- d. Improves compliance with local traffic laws for both motorized and non-motorized users
- e. Addresses inadequate vehicular traffic control devices
- f. Addresses inadequate or unsafe bicycle facilities, trails, crosswalks and/or sidewalks
- g. Eliminates or reduces behaviors that lead to collisions involving non-motorized users

Words Remaining:
_

Question #4

QUESTION #4

PUBLIC PARTICIPATION and PLANNING (0-10 POINTS)

A. Describe the community based public participation process that culminated in the project. Combined I/NI projects should address both infrastructure and non-infrastructure elements.

Include discussions of:

- . What was the process to prepare for existing and future needs of users of this project?
- Who was engaged in the public participation and planning process?
- How will stakeholders continue to be engaged in the implementation of the project?
- What strategies were used to address engagement challenges that arose during the COVID-19 pandemic?
- · Describe any unique engagement challenges that the community faced.

Question #5

QUESTION #5 SCOPE AND PLAN CONSISTENCY (0 - 3 points)

- A. The evaluators will consider the following: (3 points max)
 - · Consistency between the Layouts/maps, Engineer's estimate and Proposed scope
 - · Compliance with the Engineer's Checklist
 - · Complete project schedule

B. For combination I/NI projects, the 25-R will be evaluated for:

- · How well it reflects the applicant's responses throughout this application
- · How well the overall scope meets the Purpose and Goals for the ATP, as defined by the CTC Guidelines
- · Compliance with the ATP Non-Infrastructure Program Guidance

	Question #6
	CALIFORNIA CONSERVATION CORPS (CCC) OR CERTIFIED LOCAL COMMUNITY CONSERVATION CORPS (CALCC) POINTS)
	Applicant has not coordinated with both corps, or Tribal Corps (if applicable) (-5 points)
	Applicant contacted the corps; but does not intend to partner with any corps (-5 points)
	Applicant is not requesting Construction funds (0 points)
Step 1:	The applicant must submit the ATP Corps Consultation Form to both the CCC and CALCC at least ten (10) business days prior to the application submittal to Caltrans. The CCC and CALCC will respond within ten (10) business days from receipt of the information. Links to the ATP Corps Consultation Form, instructions and contact information for submission or questions can be found at:
	California Conservation Corps ATP webpage
	Or
	Certified Local Conservation Corps ATP webpage
	Attach submittal email, response email and any attachment(s) from the CCC: Attach submittal email, response email and any attachment(s) from the CALCC:
	Attach submittal email, response email and any attachment(s) from the Tribal Corps (If applicable):
Step 2:	The applicant has coordinated with the CCC AND with the CALCC, or the Tribal Corps and determined the following: (check appropriate box) Applicant intends to utilize the CCC, CALCC, or the Tribal Corps on the following items listed below. (0 points) (Max of 100 Words)
	Words Remaining:
	No corps can participate in the project. (0 points)
	At the time that the application was submitted, the applicant had not received a response from the following corps: (0 points)
	☐ the CCC ☐ the CALCC ☐ the Tribal Corps (if applicable)

Question #7

QUESTION #7

APPLICANT'S PERFORMANCE ON PAST ATP FUNDED PROJECTS (0 to -10 points)

For CTC use only.

Part C: Application Attachments

Applicants must ensure all data in this part of the application is fully consistent with the other parts of the application. See the Application Instructions and Guidance document for more information and requirements related to Part C.

List of Application Attachments

The following attachment names and order must be maintained for all applications. Depending on the Project Type (I, NI or Plans) some attachments will be intentionally left blank. All non-blank attachments must be identified in hard-copy applications using "tabs" with appropriate letter designations.

Application Signature Page (Required for all applications)	Attachment A
application digitation age (Nequired for all applications)	Attachment
Engineer's Checklist (Required for Infrastructure & Combo Projects)	Attachment B
Project Location Map (Required for all applications)	Attachment C
Project Layout/Plans showing existing and proposed conditions Required for all Infrastructure Projects)	Attachment D
Photos of Existing Conditions (Required for all applications)	Attachment E
Project Estimate (Required for all Infrastructure Projects)	Attachment F
Non-Infrastructure Work Plan (Exhibit 25-R) Required for all projects with Non-Infrastructure Elements)	Attachment G
Plan Scope of Work (Exhibit 25-Plan) Required for all Plan Projects)	Attachment H
Letters of Support (10 maximum) and Support Documentation Required or recommended for all projects as designated in the instructions) (All letters must be scanned into on	Attachment e document.)
Exhibit 25-F_State Funding	Attachment J
Additional Attachments Additional attachments may be included. They should be organized in a way that allows application reviewers easy identification and review of the information.) (All additional attachments must be scanned into one documents.)	Attachment K
