To: Division Administrators  
Directors of Field Services

Recent correspondence with your staff indicated that your States are ready to obligate Emergency Relief (ER) Funds made available under 23 U.S.C. 125. The attached table shows the distribution of ER Funds by emergency event.

This memorandum authorizes the Divisions to obligate these ER funds up to the allocated amount from the FMIS program codes as shown. These funds are not subject to obligation limitation. Please ensure that the disaster Fiscal Year (four digits) and disaster sequence number (one digit) are entered into FMIS at project authorization. In addition, all projects using these program codes must include the assigned Emergency Relief Code (ER Code) in FMIS, as shown in the attached table. Population of the ER Code at project authorization allows FHWA to track funding allocations by event and ensure compliance with legislative provisions.

The listed ER allocations are being made for the specific events shown. Excess funds may not be moved from one event to another within a State. We will monitor FMIS to identify ER obligations and expenditures and will work with your office to periodically deallocate ER funds that are no longer needed for the events for which they were allocated.

By copy of this memorandum, we request that the Office of Budget – Budget Execution Team, Office of the Chief Financial Officer, process this allocation. If you have any questions regarding this allocation, please contact Alex Appel at (202) 366-4652 or Katie Hulbert at (202) 809-4758, or the Emergency Relief Team at [HISM\\_10@dot.gov](mailto:HISM_10@dot.gov).
