

EXHIBIT 3-F INSTRUCTIONS FOR REQUEST FOR AUTHORIZATION DATA SHEET(S)**General**

“Request for Authorization (RFA) Data Sheets” (Exhibit 3-E) must be submitted whenever a local agency desires federal participation in a phase of work for the project. The completed RFA data sheets provide the basic project information necessary for Caltrans and FHWA to process a request for federal authorization. A federal “Authorization to Proceed” (E-76) must be issued prior to beginning work for which federal reimbursement is sought and before the project is advertised for construction.

Dist.–Co.–Rte–PM/Agency: Complete the District, County, Route (State Route only or 0 (zero), Post Mile limits (State Route only) or 4-digit Agency abbreviation. This group of characters is called the Project Locator.

FTIP/FSTIP ID No.: This project ID number is assigned by the Regional Transportation Planning Agency (RTPA) or Metropolitan Planning Organization (MPO) and references the project in the regional Federal Transportation Improvement Program (FTIP) and Statewide Federal State Transportation Improvement Program (FSTIP). All projects that receive federal “Authorization to Proceed” must be listed in the triennial element of the current federally approved FTIP/FSTIP. This project ID number is available at the regional RTPA/MPO web site in the Caltrans CTIPS system referenced below.

FHWA requires that all federally funded phases of work be specifically listed in the federally approved FTIP/ FSTIP. Phases of work not listed must be amended into the FTIP/FSTIP via a TIP amendment prior to the authorization/obligation of federal funds.

Federal Project Number: The Federal Project Number (FPN) is the major federal project identifier and must be reported for all federal-related transactions. The last seven (7) numeric digits of the FPN are used to identify the project in both the Caltrans’ Federal Aid Data System (FADS) and the Federal Management Information System (FMIS). Typically, the alpha/numeric characters preceding the last seven numeric digits of the FPN are used to identify the federal funding program (for ongoing multi-year projects the fiscal year of programming may also be identified). For the initial project federal authorization, the Caltrans District Local Assistance Engineer (DLAE) or Division of Local Assistance (DLA) will assign the FPN. On subsequent authorization requests, enter the FPN previously assigned.

Project Planning Number (PPNO): For projects financed, in whole or in part with funds from the State Transportation Improvement Program (STIP), Caltrans will assign a project PPNO. Project PPNOs are available at Caltrans maintained California Transportation Improvement Program System (CTIPS) web site.

Caltrans Expenditure Authorization (EA): The EA is the primary state identifier for transportation projects financed with federal and/or state funds. The first two (2) characters of the EA identify the Caltrans District number (01, 02, ... 12). The next 6 characters identify the six (6) digits of the EA (the combined eight (8) characters are referred to as the Primary EA). The suffix to the EA may contain up to five (5) characters, including an “S” or “L.” For projects funded with local assistance federal funds (including Regional Improvement Program Funds from the STIP), an “L” suffix is used at the end of the Primary EA. The Caltrans Division of Local Assistance administers local assistance federal funds. For the initial program authorization, the DLAE establishes the EA to be used. On subsequent authorization request, enter the EA previously assigned.

CTIPS Reference No.: Enter the thirteen (13)-character California Transportation Improvement Program System (CTIPS) reference number. The MPO FTIP/FSTIP project ID number may be used if a CTIPS reference number is not available. The (CTIPS) project number is assigned by Caltrans and is available at the Caltrans maintained CTIPS.

Bridge No.: This number is required for all projects that involve bridge replacement, rehabilitation or seismic retrofit work. Enter the National Bridge Inventory (NBI) structure number of the bridge(s) to be replaced, rehabilitated, or retrofitted. The NBI structure number(s) are available via the Caltrans Division of Local Assistance Highway Bridge (HBP) web site at <http://www.dot.ca.gov/hq/LocalPrograms/>

The NBI structure number format is XXYZZZZS where XX represents the two (2) digits county number (01-58); Y is the bridge owner; ZZZZ is the actual bridge number; S represents the suffix for the bridge.

Preliminary Engineering and Right of Way activities using HBP funds also must report NBI structure number(s).

Responsible Agency: The responsible agency is the agency receiving the federal funds and preparing the “Request for Authorization.” This agency is ultimately responsible for implementation of the project. Typically, this agency will provide the required match to federal funds and maintains the completed facility. The responsible agency must enter into a project funding agreement directly with the state for project design, construction, etc., but also may enter into a separate agreement with a city, county or other entity to implement and administer the project or project phase on their behalf.

Implementing Agency: Name of agency implementing the project or project phase on behalf of the responsible agency. Discuss in the Local Agency Comments section of the RFA data sheets.

Project Title: Enter the project title as listed in the current federally approved FTIP/FSTIP.

Work Description: Provide a brief description of the work for which federal participation is being sought. The description of work must be consistent with the federally approved FTIP/FSTIP. Changes in project scope or limits will require prior RTPA/MPO concurrence and FTIP/FSTIP amendment. For changes in project scope or limits, a **revised “Authorization to Proceed” must be approved by FHWA.**

When planning projects are involved, identify the time period that the project covers.

Project Location: Enter a brief description for the project limits that includes a U.S., State or local route(s). The description should reference the project by municipal boundaries, county lines, intersecting highways, streams, railroad crossings, etc. If more space is needed to describe a multi-location project attach a separate listing of project limits for each project locations.

For projects located in urban areas, identify the city and relate the project to named places as space permits.

Urban Area Name: As defined in Section 101, Title 23 of the U.S.C., an urbanized area is an area having a population of 50,000 or more persons. An attributable urbanized area is an urban area having a population of 200,000 or more and eligible to receive Federal Urbanized Area funds. The “federal participating” cost is equal to the cost of all work eligible for federal participation. Identify the “federal funding program and dollar amount” for each phase of work. Identify the funds previously obligated as well as these funds current request. The total federal funds obligated should not exceed the funds programmed in the federally approved FTIP/FSTIP (unless prior approval is received from appropriate MPO/RTPA), Caltrans Administered Federal Program (such as Bridge, Safety) or allocated by the FHWA (discretionary/earmarked federal funds).

This information must be reported for all DEMO funded projects. This includes any removal, adjustment or demolition of buildings or major obstructions, and utility or railroad work that is a part of the contract for physical construction.

Related DEMO Project(s): Occasionally, a DEMO funded transportation project is funded by multiple DEMO IDs.
