CTSS 7-1.03, Public Convenience

CM 3-702, Public Convenience

Green Book 5-7, Safety

Green Book 302-10.4, Public Convenience and Traffic Control

Public Safety

Temporary Traffic Control (TTC) Plan:

- *Required* for each Federal-aid project
- Before work begins, TTC plans must be approved by the Engineer or the Engineer's designee of the public agency
 - A. TTC Plan in PS&E, or
 - B. Provisions that allow the contractor to develop/modify the TTC Plan

**LAPM 16.15 Traffic Safety in Highway
and Street Work Zones**

**CA MUTCD, Part 6 Temporary Traffic Control
Greenbook 5-7, Safety**

Public Safety

Local Agency designates a TTC Plan and safety person:

- Ensure implementation
- Require revisions as necessary

**LAPM 16.15 Traffic Safety in Highway
and Street Work Zones**

Public Safety

The contractor is responsible to provide for public safety.

- Keep existing signals and lighting in operation
- Enter and leave highway safely
- Remove hauling spillage/control dust
- Use TTC devices that comply with Manual on Uniform Traffic Control Devices ([MUTCD](#))
- Provide flagging as necessary

CTSS 7-1.04, Public Safety
CM 3-703, Public Safety
Green Book 5-7, Safety

Legal Relations & Responsibility

Remember...

- The Contractor must comply with all laws, regulations, orders, and decrees.
- The Contractor is obligated to minimize inconvenience to the public or property owners.
- Public safety requirements are to be enforced.
