

# Preservation STG Agenda & Meeting Minutes

**Date: February 13, 2019**

**Time: 10:00 AM – 12:00 PM**

**Location: 4522 Parker Avenue, Bldg 700, Suite 350, McClellan**

---

**Facilitator:** Doug Mason

**Attendees:** Doug Mason (CT Chair), Scot Dmytrow (IN Lead), Raguparan Thangavelauthem, Vera Nanugonda, Sallie Houston

---

1. Introductions/Review Agenda

2. Purpose of Meeting – Finalize bin list for future tasks:

- I. This is the third meeting for the new Pavement Preservation STG. This group is reviewing and finalizing the PPTG bin list for future tasks for the group to take on.

3. Review and Finalize Bin List for PPTG:

- I. Group reviewed the current bin list and came up with a list of items the task group identified needed to be worked on for our group. The number one priority is section 37, TG needs to review section 37 for technical content after removing the emulsion from section 37 to section 94, check quality control is in line with quality assurance with revised section 94, matching CRM gradations and requirements in section 37 to section 39, and remove Micro-Deval language from Quality Control. Group's 2nd priority is to complete the fog seal specifications previously under Rock Products without a skid tester requirement. Next priority was to determine if Vialit test is a viable test and if not, find a replacement such as sweep test for a durability test, if group finds no benefit or no test available, remove the language from the specification. Next priority was to modify California test method 339 to capture spread rates of emulsions or binders coming out of nozzles of spray truck to see if uniform spraying is occurring. Next priority was evaluating Micro-Deval test method versus a Durability test to see if it is more appropriate and what resources (training, equipment, etc) would be needed if group decided to move to Micro-Deval test. Last priority was to develop language for adding fiber to slurry or micro-surfacing treatments.

4. Next Steps (Future Meetings, Develop Scoping Documents)

- I. Next scheduled meeting is March 7, 2019 from 1-4 pm. Team also chose proposed meeting times for the rest of 2019 for the STG. Scheduled meetings times for 2019 are: Feb. 13, May 8, Aug. 7, and November 6. Information will still be shared by email between meetings or when things come up..

5. Adjourn
