Outreach Q&A May 8, 2026

Question: Are there specific recurring environmental issues in District 8 such as legacy contamination or water resource constraints that consultants should be prepared to address proactively?

Answer: We are not aware of any legacy contamination issues. We have recurring issues resulting from fires in the summer and from floods in the winter.

Question: Are there any plans to expand the CalMentor program to multiple firms per Prime or a per contract base? Like LA Metro is a per contract base Mentor/Protégé (to increase the opportunities for SBs)?

Answer: Yes, a Mentor can have multiple firms as Protégés at the same time. The Mentoring company specifies how many Protégés they plan to mentor on their application. An application can be submitted to the District 7 email: d7.ppm.consultant.services.unit@dot.ca.gov.
