

***FHWA Pre-Approved Supplemental Work Items***

<b>Item Code</b>	<b>Supplemental Work Item</b>	<b>Rationale/Comments</b>
066015	Federal Trainee Program	Cost is for training expenses as part of the contractor's equal employment opportunity affirmative action program according to Title 23 Code of Federal Regulations, "Highways." The contractor is to provide on-the-job training to develop full journeymen in the types of trades or job classification involved in the contract.
066070	Maintain Traffic	<p>Cost is to cover the 50 percent State share of flagging and 100 percent of other traffic-handling equipment and devices used in carrying out provisions in Sections 7-1.08 and 7-1.09 and the special provisions ordered by the resident engineer.</p> <p>Exclude from limitation up to \$600 per day for "Maintain Traffic" (include in the limitation estimated costs in excess of \$600 per day) and up to \$1,200 per day if there are advance flagmen. The daily rates are for typical eight-hour shifts and may be increased accordingly if multiple closures or shifts are anticipated and explained in the justification. Include costs over these amounts in the percentage limitations.</p>
066094	Value Analysis	The \$10,000 is required by SSP for a "Value Analysis" workshop. This is value-analysis effort after the award of the contract. The purpose of the workshop is to identify value-enhancing opportunities and to consider modifications to the plans and specifications that will reduce either the total cost, time of construction, or traffic congestion without impairing the essential functions or characteristics of the project.
066595	Water Pollution Control Maintenance Sharing	Cost is to cover the 50 percent State share for maintaining the temporary water pollution control items identified on the approved water pollution control cost breakdown.
066596	Additional Water Pollution Control	Cost is to cover overruns on bid items in the event of heavier-than-normal rainfall during the life of the project.

Item Code	Supplemental Work Item	Rationale/Comments
066597	Stormwater Sampling and Analysis	<p>These funds compensate the contractor for performing stormwater sampling. These costs can vary widely because of the frequency of storm activity during the life of the project and the sampling frequency required. Samples for the applicable non-visible pollutants and a sufficiently large, uncontaminated background sample are collected during the first two hours of rain event discharge that results in a sufficient discharge for sample collection. Because of the uncertain frequency of testing required, this work is included in supplemental funds.</p>
066610	Partnering	<p>The State promotes the formation of a partnering relationship with the contractor to effectively complete the contract to the benefit of both parties. The State pays the cost for providing the "Training in Partnering Concepts" trainer and training site, and the State and contractor pay equally for the "Partnering Workshop" facilitator and workshop site.</p> <p><u>Excluded from limitation.</u></p>
066666	Compensation Adjustment for Price Index Fluctuations of Paving Asphalt	<p>The cost is to compensate the contractor for price fluctuations of the asphalt used in hot mixed asphalt, asphaltic emulsion, and so forth that may occur during performance of the contract.</p> <p><u>Excluded from limitation.</u></p>
066846	Incentive for Hot Mix Asphalt (QC/QA)	<p>Cost is to cover the incentive for exceeding the minimum requirements of the special provisions. Four percent of the estimate for hot mix asphalt is provided when the QCQA provisions are included in the contract.</p>
066920	Disputes Review Board	<p>Disputes Review Board is to assist in the resolution of disputes or potential claims arising out of the work of the contract. The engineer and contractor establish the board cooperatively upon approval of the contract. The State and the contractor pay the cost equally.</p> <p><u>Excluded from limitation.</u></p>

Item Code	Supplemental Work Item	Rationale/Comments
066921	Disputes Review Advisor	<p>Disputes Review Advisor assists in the resolution of disputes or potential claims arising from the work of the contract. The engineer and contractor establish the advisor cooperatively upon approval of the contract. The State and the contractor pay the cost equally.</p> <p><u>Excluded from limitation.</u></p>
NA	Approved Incentives/ Disincentives	<p>For Incentive/Disincentive (I/D) guidelines see <i>RTL Guide</i>, Sections 6.4 and 10.7.6, Discussion of selected standard special provisions and the Brent Felker memorandum dated June 12, 2000, with the subject Delegation of Authority for Use of A+B Bidding and Incentive/Disincentive Provisions. I/Ds must be approved case-by-case for both rationale and cost basis.</p> <p><u>Excluded from limitation.</u></p>
