19	Metropolitan Transportation Commission	San Francisco Bay Area Water Emergency Transportation Authority (WETA)	Mid-Life Vessel Refurbishment - M/V Solano	This project calls for the complete refurbishment and repowering of the ferry vessel SOLANO. The SOLANO was constructed and entered service in July 2004. Its main propulsion engines will come up against mandatory retirement later this year as required by the Harborcraft Regulations of the California Air Resources Board. All other equipment and machinery on the vessel is nearing the end of its useful life. While the vessel's structure remains intact with very little wear or degradation over 14 years of operation, all other elements of the ferry including accommodations for the passengers are in need of refurbishment. The ferry vessel will be 2.5 years beyond its current economic midlife by the time this project starts. Given the expense to replace all machinery, equipment, and accommodations it makes best use of WETA capital funds to pursue this work as a service life extension project and provide the WETA fleet with an essentially new vessel with 25 years of remaining life. The work will also enable WETA to increase the passenger capacity of the vessel from 320 to 445 in the face of increasing ridership pressure on the North Bay route.	San Francisco Bay Area	\$301,312
