2019 Place Names in California

The Place Names in California Report is produced by the California Department of Transportation (Caltrans) as a ready reference to places shown on the California Road System (CRS) maps. The CRS maps, produced by Caltrans and approved by the Federal Highway Administration (FHWA), show all public roads and their functional classification, as well as cities, counties, urban-rural boundaries, and other geographical features. The CRS maps can be found at: *https://caltrans.maps.arcgis.com/apps/webappviewer/index.html?id=026e830c914c495797c969a3e5668538*

The Division of Local Assistance within Caltrans maintains a system that identifies each incorporated city, county, and urbanized area with a unique, 4-digit code number. These codes are primarily used to identify local assistance projects and for tracking payments by accounting. Other departments and local agencies have found these codes useful in planning and project development.

There are 482 incorporated cities in the State of California. The highest city code number is 5-486 (city codes begin with the number 5, followed by a three digit sequential number; for example, San Francisco, the first incorporated city in California, is coded 5-001). Four codes are no longer used due to the merger of cities or un-incorporation. The most recent city incorporated was the city of Jurupa Valley in 2011; there were no new cities incorporated in 2019.

Any errors or suggestions for improvement should be reported to Caltrans, P.O. Box 942874, Sacramento, CA 94274-0001, Attention: Division of Research, Innovation and System Information (DRISI), Office of Highway System Information and Performance (OHSIP), Traffic Accident Surveillance and Analysis System (TASAS) Branch, Mail Station 38, or email at Aaron.Truong@dot.ca.gov.
