Background:

CTCDC Experiment 20-12 – Orange Contrasted Temporary Pavement Delineation in Construction Zones [and FHWA experiment 6(09)-59(E) - Orange Contrast Temporary Pavement Markings - CA DOT] was closed at the November 2, 2023, CTCDC meeting. Caltrans submitted to FHWA for Interim Approval but was denied due to insufficient amount of data.

In order to substantiate the positive findings of the experiment in Caltrans District 11, the proposal is to carry out the same experiment at 4 additional locations in different areas of California.
