Background:

The National MUTCD 2023 is published by Federal Highway Administration's (FHWA) under 23 Code of Federal Regulations (CFR), Part 655, Subpart F. On December 19, 2023, a Final Rule adopting the National MUTCD 2023 was published in the Federal Register with an effective date of January 18, 2024. States must adopt the National MUTCD as their legal State standard for traffic control devices within two years from the effective date.

Caltrans began the process to review National MUTCD 2023 for adoption in California by soliciting CA MUTCD practitioners statewide to form Subject Matter Expert (SME) Workgroups based on the individual Parts of the MUTCD.

Initial draft documents are being prepared by Caltrans to revise current CA MUTCD 2014 Revision 8 and develop CA MUTCD 2026 version that will be in substantial conformance with FHWA's National MUTCD 2023 (11th Edition). These initial draft documents are developed pursuant to SME Workgroup members review of their respective MUTCD part in the weekly/bi-weekly meetings, when comparing the new National MUTCD 2023 with California revised contents of the National MUTCD 2009 (10th Edition) in the current CA MUTCD 2014 Revision 8. The SME Workgroup meeting reviews and discussions focus on assessing potential impacts of adopting these
