Background:

Effective April 1, 2025, the California Department of Transportation (Caltrans) has made edits referred to as Revision 9 (Rev 9), to the 2014 California Manual on Uniform Traffic Control Devices (CA MUTCD), to provide uniform standards and specifications for all official traffic control devices in California. This action was taken pursuant to the provisions of California Vehicle Code Section 21400 and the recommendations of the California Traffic Control Devices Committee (CTCDC). Caltrans has received a letter of substantial conformance from the Federal Highway Administration (FHWA) for the CA MUTCD 2014, Rev 9. The CA MUTCD Rev 9 includes policy revisions addressing 9 specific CTCDC recommendations to Caltrans since February 1, 2024, and other corrections and format changes.

The Summary of Changes, the revised Manual, and all other related documents can be found at the CA MUTCD website:
